Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Re: A-36-14821 - Seeley

Dear Sir:

Thank you, for your letter of November 16,
1990.

I'll have a couple of Affidavits for you by
the Dec. 15, 1990, response date.

In the meantime, I would appreciate your advice
as to whether or not your Department contemplates putting
the stream under such supervision and control as to prevent
or affect our ability in the future to divert our own waste
water for the irrigation of the 12 to 13 acre field.

We own the farm across the road and to the
east, and our waste water runs into this stream.

Also, what if in the future we ran our own
Canal Co. water into this stream, to be picked up at the
diversion point?

Sincerely,

Richard H. Seeley

RE: A36-14821 (04/01/1925 priority, 0.24 cfs from unnamed stream for
irrigation of 12 acres)

Dear Mr. and Mrs. Seeley:

In response to your November 8, 1990 letter I have reviewed the micro-film record for the statutory claim 36-04125 which your adjudication claim is based and did not find any affidavits in support of the priority date in the file. Since your letter seemed to indicate that you may have filed some I phoned the vault in Boise where all original records are held and they only have what is on the micro-film. If I were able to locate any affidavits in support of 36-04125 they would apply also to your adjudication claim. As for why the proof of priority was not discussed when you were in our office on October 16, 1990 I have no answer.

To answer your concerns about how the names are listed on the copy of the computer generated claim and/or any mailing label, there is no significance in which name is listed first. Actually we have no control over which one will come out first; it seems to be a function of the way the names are updated to the data base mass storage which seems to be independent of the sequence at the time the original data entry is made.

Please find another brochure enclosed outlining the proof of priority requested in support of your adjudication claim. You will need to respond to our original letter dated October 3 but I have extended the response date until December 15, 1990. We are presently conducting the field investigation of the claims filed in your area and we must prepare our report to the court in early 1991 so we need your response as soon as possible.

If you have any questions please contact our office.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Re: A36-14821 -- Richard H. & Victoria C.
Seeley

Dear Sir:

Your communication of Oct. 3, 1990, addressed to Victoria C. Seeley, has just now been brought to my attention.

As specified in our "Notice of Claim" of April 10, 1990, this claim was previously filed under Secs. 42-243 and 42-244, Idaho Code, as Claim # 36-04125. This claim was subsequently supported by Affidavits. Would not the claim and supporting data of the previous filing be sufficient for the priority requirements of the later filing? If not, will you please send to me a copy of the supporting matters filed in the earlier matter?

I was in your Office on October 16, 1990, relative to amending the claim to include a domestic well, and am wondering why the matter of priority proof was not then brought up?

I now notice that in the copy of the 4/10/90 filing furnished by your Office, our names have been reversed by your Office so that Mrs. Seeley's name appears first. Is there any significance in this action?

Sincerely,

Richard H. Seeley

CLAIM OF RICHARD H. & VICTORIA C.
SEELEY, IDENTIFICATION NO. A 36-14821,
IDAHO DEPARTMENT OF WATER RESOURCES

Department of Water Resources
Southern Region Office

AFFIDAVIT

STATE OF IDAHO)
) ss.
County of Jerome,)

BOB SELLERS, being first duly sworn, deposes and
says:

He is a citizen of the United States, a resident of
Jerome County, Idaho, and over the age of 21 years.

He is familiar with the irrigation practices as app-
plied to real estate in said Jerome County, described as
follows:

SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ (also known as Lot 5), in
Section 24, Township 10 South, Range 19 East,
B. M.,

having farmed said real estate, as tenant for the owners,
Richard H. & Victoria C. Seeley, continuously beginning with
the 1965 farming season, to now.

Located on said farm is a cultivated field of approx-
imately 13 acres, which was and is irrigated totally from water
diverted from an unnamed stream bordering said field on the
north, which said stream enters said farm from the east and
meanders in a generally westerly direction to the Snake River
Canyon.

MICROFILMED
FEB 09 1993

The practice is and during all of said years was to divert from said stream into the service ditches and onto said field sufficient water to entirely irrigate the various crops grown.

Due to the location of said stream with reference to the said field, and the roughness of the general terrain, there is no other practical way to irrigate said field.

Bob Sellen

Re: A-36-14821 - Seeley

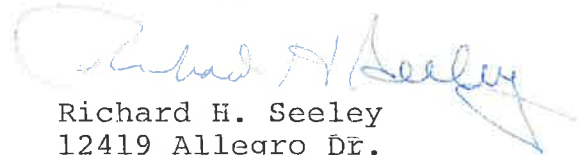

Dear Sir:

Enclosed you will find Affidavits of myself and Claude E. York, in support of the Claim for water right bearing the above number.

I have arranged for another Affidavit, which will be sent or delivered to your Office by Bob Sellers, of Hazelton, Idaho, the present occupant of the farm.

I haven't yet had a response to my letter of November 23, 1990.

Sincerely,

Richard H. Seeley

Calculated flow in ditch using Mannings equ.

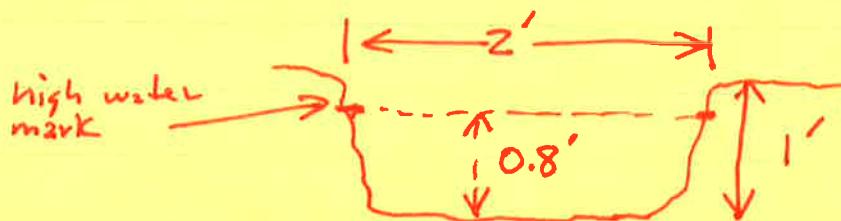

$$n = 0.027$$

based on observation that ditch is excavated in earth with few short grass in bank.

$$S = 0.0002$$

estimated from field observation that ditch has slight slope.

Field observation of average X-section:

* Note that water was not flowing at time of field observation on 1/23/91.

$$Q = \frac{1.49}{n} R^{2/3} S^{1/2} A$$

$$R = .8 + 2 + .8 = 3.6$$

$$A = .8 \times 2 = 1.6$$

$$Q = \frac{1.49}{(.027)} (3.6)^{2/3} (.0002)^{1/2} (1.6)$$

$$Q_{calc} = 2.93 \text{ cfs}$$
