

MEMORANDUM TO CLAIM FILE

Date: 3/11/2021

To: Claim File for 87-10274

From: Evan Roda, IDWR

Re: Point of Diversion

One of the three wells claimed is not yet in use, one of the others was completed on 9/23/09 per well drillers report, and the original well was completed in 1999. As the second well was not in use prior to 2006, it cannot be recommended as an accomplished change in point of diversion. Thus, only one well can be recommended, unless the priority date is changed to 9/23/09.

I called and spoke with claimant, Stephen Bergmann, and explained the options for the recommendation of his claim. He stated that he prefers we recommend the claim with 2 points of diversion and a priority of 9/23/09.
