RE: SRBA Claim A36-02547 number change to A36-15171

Dear Claimants:

In our review of the claims filed in the Snake River Basin Adjudication we have found it necessary to renumber your claim as described above. This action may have been taken as a result of one of the following described situations:

A. We are correcting a duplication of numbers made when the claims were initially taken.

B. We are correcting the number since it was initially assigned in the wrong basin.

C. We have matched an existing water right number with the water use you claimed and for continuity have changed the number to correspond.

D. We have reviewed the water right record corresponding to the your initial claim and have found that the water right record does not exactly correspond so a new number has been assigned.

Please note that the change in the number of your claim does not affect the validity of your claim. Please refer to the new number in all future correspondence. Please find enclosed a copy of the computer record of A36-15171. If you have any questions please feel free to contact our office.

Sincerely,

RE: SRBA Claim(s) 36-15171

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding which the department has filed with the SRBA Court regarding the above referenced claim. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Your address has also been changed on decreed water right 36-11840 and claim A37-12895. These claims do not require notification be sent to the SRBA Court since 36-11840 has already been decreed and is no longer pending and A37-12895 is in a basin for which a Director's Report has not yet been filed.

Please contact this office if you have any questions about the notice or the administrative process.

Re: Snake River Basin Adjudication (SRBA)
Notice of Error Response
Recommended Right Nos. 36-11839, 36-15171

Dear Mr. and Mrs. Thompson,

You recently filed a Notice of Error with IDWR concerning the water rights referenced above. No change to our recommendation has been made at this time.

The law requires that any development of irrigation water after March 25, 1963 be licensed through a mandatory procedure. A special set of statutes (42-1416, IC) was developed for the Snake River Basin adjudication to recognize expansion of existing licensed rights. Your claim, 36-11839, is recommended as such an expansion right, developed originally in conflict with the mandatory permit statute.

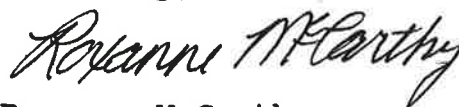

It is the Department's policy that such expansion rights may irrigate more land using only the amount of water previously licensed or decreed. The 17 acres recommended in 36-11839 can be irrigated at the same delivery rate as the previously licensed lands; the total diversion rate on those lands was calculated to be 0.25 cfs. For the same reason, the total combined diversion rate shown on the rights can not exceed the originally licensed amount of 4.65 cfs.
