RESPONSE DEADLINE:
MARCH 29, 2021

SUBJECT: Palouse River Basin Adjudication Claim (PRBA) No. 87-11762

Dear claimants,

The Idaho Department of Water Resources (IDWR) is reviewing water right claims filed in the Palouse River Basin Adjudication. During my review of your claim, I have a few things that needs addressed. I tried reaching you by phone and left a voicemail, but you did not respond.

With this letter I enclosed a copy of your Notice of Claim to a Water Right 87-11762. In my review, it seems like there are different uses from different sources with different priority dates. There should be a separate claim for the well for domestic and stockwater use, a separate claim for the instream stockwater use, and a separate claim for the irrigation use.

Please contact me regarding the water use on the property. If I do not hear from you by the response deadline, I will only recommend the claim for the well for domestic and stockwater use. I cannot recommend the irrigation use because I do not know if it is supplied from the well or stream. If you do not contact me and I recommend the claim, your decreed water right will not include irrigation use, and that use must be permitted. If you concur with my recommendation, no further action is required.

If you have any questions, my telephone number is (208) 762-2810 and my email is christopher.holmes@idwr.idaho.gov.

Sincerely,

Christopher Holmes
Water Resource Agent

Enclosure: Copy of Claim 87-11762
