Re: Amendment of Claim A36-11643
Claimant: W.H. Moller and Velva Moller

Dear Mr. Merritt:

I have enclosed for filing in the Snake River Adjudication two amended claims, in substitute of the claim No. A36-11643 previously filed on behalf of Mr. and Mrs. W.H. Moller. The first Amended Claim is for 75 acres that the claimants commenced irrigating on April 1, 1962, and therefore have obtained a constitutional water right for these 75 acres. In support of this claim, we have attached to the claim a verified aerial photo from the ASCS office taken on September 1, 1962, showing the irrigation of these additional acres, in support of the 1962 appropriation of the additional water.

We have also filed an amended claim for water spread lands in Section 20, showing the water spread on 90 acres. In support of this claim, we have attached an aerial photo showing the irrigation of the 90 acres and a report from the ASCS office reporting barley grown in 1981 on the subject real property in Section 20.

As the acreage has not been increased from the claim amended, we are enclosing our check in the sum of \$50.00 for the second claim showing the early priority date.

If you have any questions in regard to this matter, please feel free to contact this office.

Very truly yours,

Roger D. Ling

RDL:rah
Enclosure

6 ~~RIGHTS~~

~~THREE~~ SYSTEMS (CLAIMS RELATED BY P/U AND/OR P/D)

SYSTEM 1.

CLAIMS: A36-0273

The system is a ground water right claimed as licensed.

Review found no expansion but P/U required modification to match found acres per Q-Q. System modification created field acre change.

P/D legal lacked 10 Acre designation but otherwise matched license description.

SYSTEM 2.

CLAIMS: A36-02065A

The system is a ground water right claimed as licensed. Review, using ASCS, NAPP, AND ORTHO PHOTO, verified no change.

P/D legal description lacked the 10 acre designation but otherwise matched the legal description.

System 3

claims A36-02118

A36-11643

A36-15186

A36-02223

36-2222

Rights A36-2223 & 36-2222 were not claimed.
Their source was waste water.

MICROFILMED
FEB 09 1993

System 3 (CONT)

The claimed system is one P/D (groundwater) for licensed night A36-2118, expansion night A36-11623 with a April, 1981 priority supported by ASCS crop reports and expansion night A36-15186 supported by AN ASCS Aerial Photo (9-1-1962 F1647) which shows cultivated fields. Priority claimed was April, 1962.

Analysis

Disclosed night A36-2118 required a change in P/D to match system modifications for a spinable system. No overall acc change was made. The claim was recommended for 983 acc and 4.4 cfs (matchbook licensed acc & diversion rate).

Claim A36-15186 has a substantiated priority date of April, 1962 which is prior to the mandatory permit statute for ground water rights, therefore a presumption flag is not necessary. (No "E" in presumption)

Field verification on 7-24-91 found the P/D as outlined on the ASCS photo. A measurement was made to determine the current diversion rate for the beneficial use claim. The system capacity was measured as 5.01 cfs. See below for calculation

Claim A36-11643 analysis:

Based upon priority date this right is considered an expansion of Both A36-2118 and A36-15186. The diversion rate recommended is based upon the 7-24-91 field exam as that exam established the div rate for A36-15186. No excess capacity is available for the expanded acres.

Calculations

36-2118 licensed for 4.4 CFS AND 283A.

CURRENT RATE FOR 2nd right only (A36-15186)

$$(283 + 75) = 358 \text{ acres total}$$

$$\text{DIV RATE} = 5.01 \text{ CFS} / 358 = \underline{0.0140 \text{ CFS/ACRE}}$$

Current rate which includes expansion acres (A36-11643)

$$358 + 90 = 448 \text{ ACRES}$$

$$\text{DIV RATE} = 5.01 / 448A = \underline{0.0112 \text{ CFS/ACRE}}$$

Recommendations

A36-15186

$$75 \text{ acres @ } 0.0140 \text{ CFS/ACRE} = \underline{1.05}$$

A36-11643

$$90 \text{ acres @ } 0.0112 \text{ CFS/ACRE} = \underline{1.00 \text{ CFS}}$$
