Subject: IDWR Notice of Claim to Water Right 87-11339 Question
Attachments: 87-11339.pdf

Good afternoon,

I am emailing you in regards to a Notice of Claim to a Water Right 87-11339 filed in the Palouse River Basin Adjudication in July of 2019 (see attached file). I am reviewing the claim and have a couple of questions.

First, do the stock drink directly from the unnamed stream, or is there a pump that pumps the water from the creek to a stock tank?

Second, when did this property and the property with the home to the east become under the same ownership? Early land patents show that this property and the property to the east were originally under different ownership. This property was purchased in 1879 by Goswin Sievert, and the property with the home was homesteaded in 1892.

Please email or call me back to discuss this claim.

Sincerely,

Christopher Holmes
