Dear Mr. Slade:

This letter is to let you know that following our telephone conversations on January 18, I was able to speak to one of the IDWR's attorneys about getting the one of the points of diversion for the rights shown above corrected. He felt that it would be best to make the correction after the SRBA Court makes a decision on the constitutionality of Idaho Code 42-1426, the waiver of the mandatory permit requirement for enlargements of the type that occurred on your land. We are hoping that the Court will remand enlargement claims, and other claims associated with them, to us for correction.

Thank you for bringing this clerical error to our attention. If you have any additional questions, please contact me at (208) 327-7939.

ANALYSIS OF A36-7119 & A36-15228.

A36-15228 is an expansion of the base right A36-7119. The number of acres within the SW 1/4 of Sec 35 have changed several times as the delivery systems changed from gravity to sprinkler to sprinkler with expanded corner system & back. The recommended expansion recognizes the center pivot with corner guns as this is the system historically used. (pictured in the 1976 orthophoto and the 1987 NAPP Photo). More of the corners were irrigated prior to the licensing exam under gravity system per the attached aerial photo (in microfiche) but the field exam recognized a center pivot only. I recommend the expanded acres with a 1972 priority.

P/U Description For Sec 36.

The system of 4 wells waters all but the SE $\frac{1}{4}$ SW corner of the South W $\frac{1}{4}$ (approx 5 acres ea) and 7 acres in the NW $\frac{1}{4}$ where a farmstead is located.

These acres are covered by 5 licensed claims $\pm$ one expansion claim for 5 acres. The system is designed for cross irrigation. P/D # 1 supplies corners in both the NW $\frac{1}{4}$ of Sec 36 $\pm$ NW $\frac{1}{4}$ of Sec 35 through a gravity $\pm$ redlift pump system. P/D # 2 is not normally tied to other P/D's but is included within the PPU as it is a part of the system. P/D # 3 $\pm$ 4 are tied together and can irrigate acres in either section.

These claims are recommended as a Permissible P/U with all P/D's on each claim. An expansion claim for 5 acres in the NE SW of Sec 36 is needed. The claimed priority of 3-15-70 is substantiated by a ~~resident~~ neighbor's affidavit.

For P/D identification in this recommendations the P/D identifies the legal description are,
