DATE: JUNE 10, 1992

FROM: ANNA BAUMHOFF *B*

RE: CLAIMED PLACE OF USE ERROR

During review of this claim I have determined that the claimant intended to claim 40 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ rather than 40 acres in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$. This conclusion is based upon the map attached to the claim form, and the fact that the claim form was computer generated rather than hand written, and the claim was requested by IDWR because of preliminary review. Also that the Claimant does not own the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$, and that the 40 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ lies in the middle of the parcel, and was to have been claimed on the B.U. claim IDWR requested.

Rather than requesting an amended claim I will be changing the legal description of the place of use for the recommendations.

That to the best of my knowledge and that I would testify too! In the year 1961 or 1962 I purchased 560 acres in Sec 20 T50 Range 23 E. also in 1961 or 1962 I increased the water from the well 4.0 C.F.S to 5.575 C.F.S. This water was used to irrigate a additional 228 acres in the same Section.

There was additional work done on the well. It was drilled deeper. Most of my records was destroyed in a fire April of 1989.

A36-02185 -- Darwin Neibaur

3/27-3/25 - FAX to Arden
(Layne Pump)

Situation: Mr. Neibaur filed a claim on this license which covers 200 acres. In reviewing the claim it appeared from the ASCS photo that there was several more acres being farmed in the west half of sec.20. I determined that there was approx. 428 total acres being farmed. I called Mr. Neibaur and asked him what he actually owned and how much he was farming. He told me they owned all of the west half also and they knew there was about 425 acres farmed all together. I explained that he would need to file an expansion claim for the maximum number of acres he could under the second presumption which would be about 200 and then make an application for a permit for the balance if he has or can develop more water. He explained that he had gone into the Southern office to take care of this a couple of years ago and that they prepared some papers for him and he brought them home and then he had a house fire which destroyed them and he never did anything more about them. I sent him a claim form and all he did was sign and notarize it and sent it back. He stated in his return letter he would come to Boise after we have reviewed it. see file. When I talked with him after that, I inquired if he had increase the capacity of the well any. He thought

RE: CLAIMED PLACE OF USE ERROR

During review of this claim I have determined that the claimant intended to claim 40 acres in the NE¼ of the SW¼ rather than 40 acres in the NE¼ of the NE¼. This conclusion is based upon the map attached to the claim form, and the fact that the claim form was computer generated rather than hand written, and the claim was requested by IDWR because of preliminary review. Also that the Claimant does not own the NE¼ of the NE¼, and that the 40 acres in the NE¼ of the SW¼ lies in the middle of the parcel, and was to have been claimed on the B.U. claim IDWR requested.

Rather than requesting an amended claim I will be changing the legal description of the place of use for the recommendations.

Following are job order concerning
subject pumps. Our first record is 8-2-74.
On 6-2-80 the pump was changed from
a 3 Stg. Bowl assembly to a 4 Stg. Bowl.
We have contacted Mfgs. T.N. to see if
they have the original record. However
they will not have the installation record -
only the date the pump was originally sold
and the original component list -
I will advise when we receive something
on it -
