The Notice(s) of Claim identified with the number(s) shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree, or Permit. I am reviewing and/or conducting field verifications for your claims. Since the priority date of a beneficial use water right can not be confirmed by field verification, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of the priority date is submitted.

Please find enclosed a printout of your Notice(s) and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggest which documents will fulfill this requirement. I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

Please submit the required evidence supporting the priority date(s) by July 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter of the enclosed pamphlet, please contact this office.

Sincerely

Kelly K Christensen

Dale H. Klingler, being first duly sworn, deposes and says:

1. That this affiant is the owner of record of the real property described in the Adjudication Claims numbered A36-02433, A36-02434, A36-02435, A36-02618, A36-07209, A36-07627, A36-08277, A36-15264, A36-15265, A36-15266, A36-15267 and A36-15270.

2. A portion of the real property described in the above claims was first purchased by this affiant in 1960 and this affiant has been familiar with all of the above real property and its method of irrigation from 1960 to 1974.

3. The lands described in claim A36-02433 have been irrigated under License 36-2433 since October 1, 1960, even though the license with a priority of October 1, 1960 did not describe accurately the lands irrigated under said license.

4. The irrigation of the lands described in Claim No. A36-15264 was commenced in April, 1965 when this affiant developed these additional acres of land in Section 29, and the water from License 36-02433 has been spread upon these lands since 1965.

5. The lands described in Claim No. A36-02435 were developed and irrigated by May 23, 1960, and were farmed by Morgan and Shillington, a partnership. This affiant was fully

MICROFILMED
FEB 09 1993

familiar with said lands and said lands were ultimately purchased by this affiant. The total acres being irrigated in May, 1960 were 311, even though the license was ultimately issued for only 302 acres.

6. The lands described in Claim No. A36-02618 were developed by this affiant and were first irrigated in May, 1965. This claim is a more accurate description of the lands developed under license 36-02618 and irrigated since May, 1965.

7. The lands described in Claim No. A36-07209 were first irrigated by this affiant in April, 1971 and accurately describe the lands that were irrigated under License 36-7209 since that date.

8. The lands described in Claim A36-02434 have been irrigated under Water License No. G-28733/36-2434 since May of 1960. The lands described in the claim more accurately describe the lands irrigated than does the license issued.

9. The lands in Section 32, Township 7 South, Range 26 East of the Boise Meridian described in Claim A36-15265 constitute water spread acres that have been irrigated since May, 1971, and are also shown in Claim A36-02435. The lands in Section 4 described in this claim were developed between 1974 and April 1, 1984, the exact date of which is unknown to this affiant, except those lands developed under License 36-7627. These water spread acres were developed after this affiant sold the land in the fall of 1974, and before the lands were returned to this affiant in 1984.

MICROFILMED
FEB 09 1993

10. The lands described in Claim A36-15266 were first irrigated by this affiant by water spread in the spring of 1971 and have been irrigated continuously each year since that date. The priority date of this claim should be changed to April 1, 1971, being the date when the water spreading under this claim first occurred.

11. That the above are based upon this affiant's personal knowledge from what he observed or what he actually did at the times indicated above.

Dale H. Klingler

We reviewed the recommended place of use for the claims listed and compared those acres against current irrigation practices. In general, it appears that most of the systems are now irrigating fewer acres than recommended. There also appears to be some discrepancy in the acres per q/q totals. We discussed the possibility of filing transfers to correct the problems.

He indicated that he is in the process of purchasing the Klingler property. The same situation exists for these systems also. I indicated that he would have to obtain a power of attorney to be able to deal with these rights.

He indicated that it probably will be late fall before he can start the paperwork.

C. NAME AND ADDRESS OF PERSON WHO FILED THE OBJECTION TO WHICH YOU ARE RESPONDING

Name: Dale H. Klingler

Address: 4567 Feddederal Blvd.
San Diego, California 92102

- D. Magic Valley Ground Water District, Aberdeen-American Falls Ground Water District, Bingham Ground Water District, Tim Deeg, Mack Neibaur, and Ralph Breeding (collectively, "Respondents"), hereby respond to Dale H. Klingler's objections to the following elements.

4. ☒ **Priority Date.** Summary response: The use involved in this claim is an enlarged use which began, and has continued, without complying with the mandatory permit system applicable to water diversions and uses under Idaho law. Accordingly, the enlarged use must cease unless it qualifies as an enlargement as defined in I.C. § 42-1426, a statute which became effective April 12, 1994. To the extent the use qualifies as an enlargement, it may be recognized as a new water right in the SRBA only if it is subordinated to all other, non-enlarged water rights existing on that date or given a priority date no earlier than April 12, 1994. If the new water is not conditioned in this manner, it will cause injury to the priorities and the water rights of other water right holders, including members of respondent.

If the priority date asserted by the claimant in this matter is assigned to this enlarged right, without the subordination condition recommended by the IDWR, then Respondents' water rights will be injured by having new water rights created in the SRBA which are given priorities ahead of Respondents' water right priorities.

Recommendation.

This water right claim should be denied unless it is decreed with the subordination condition as recommended in the Director's Report or given a priority date no earlier than April 12, 1994.

C. NAME AND ADDRESS OF PERSON WHO FILED THE OBJECTION TO WHICH YOU ARE RESPONDING

Name: Dale H. Klingler
Address: 4567 Feddederal Blvd.
San Diego, California 92102

- D. Magic Valley Ground Water District, Aberdeen-American Falls Ground Water District, Bingham Ground Water District, Tim Deeg, Mack Neibaur, and Ralph Breeding (collectively, "Respondents"), hereby respond to Dale H. Klingler's objections to the following elements.

4. ☒ **Priority Date.** Summary response: The use involved in this claim is an enlarged use which began, and has continued, without complying with the mandatory permit system applicable to water diversions and uses under Idaho law. Accordingly, the enlarged use must cease unless it qualifies as an enlargement as defined in I.C. § 42-1426, a statute which became effective April 12, 1994. To the extent the use qualifies as an enlargement, it may be recognized as a new water right in the SRBA only if it is subordinated to all other, non-enlarged water rights existing on that date or given a priority date no earlier than April 12, 1994. If the new water is not conditioned in this manner, it will cause injury to the priorities and the water rights of other water right holders, including members of respondent.

If the priority date asserted by the claimant in this matter is assigned to this enlarged right, without the subordination condition recommended by the IDWR, then Respondents' water rights will be injured by having new water rights created in the SRBA which are given priorities ahead of Respondents' water right priorities.

Recommendation.

This water right claim should be denied unless it is decreed with the subordination condition as recommended in the Director's Report or given a priority date no earlier than April 12, 1994.

Exam identifies 23 acres in SW NE Sec 29

22 acres in NW SE Sec 29

as irrigated but not covered by permit. Therefore I
accept the earlier priority date for those acres.

Submitted evidence in conclusive as to subsequent
development. Lacking further evidence I recommend
the balance of the found acres under Part B with the
orthophoto flight date as evidence of priority.
