SUBJECT: OWNERSHIP CHANGE QUESTIONS

phone call (.) walk-in (X)

Mr. and Mrs. Kester of Kester Realty stopped in several weeks ago with some questions on this right. I finally had time to pull up the GIS map and print a copy for the file. It appears there may be some problems with our recommendation of this right and more acres than were licensed or recommended are being irrigated. According to the Kester's, LaVerne Williams sold a portion of the NWNE quarter (outside the pivot, which consisted of about a ten acre parcel) to Allan and Fannie Bryngelson (ownership of which has not yet been changed) who then sold it to Michael and Dixie Lee Tate Dennis. She wondered if part of the recommended acres should go with that parcel. According to the maps in the file, it does look like some of those acres should be part of the recommendation and the right should be split. (I identified two additional areas that appear to be irrigated with polygons <-6> and <-7> on the GIS color copy). This would increase the irrigated acres possibly another 6 or 7 acres above the 95 which was claimed and recommended. According to the CVR, there is also MID water on this land and this may account for the additional acreage. I sent Mrs. Kester several ownership change forms and told her what we would need to update our records. The owners of the ten acre parcel should probably then file a transfer to move the point of diversion from the well servicing the pivot to their own well. Perhaps during the transfer process, things could be straightened out...

RE: OWNERSHIP CHANGES ON ADJUDICATION CLAIM 36-07171 (part)

Dear Mrs. Kester,

Enclosed are the Ownership Change forms I promised you. We will need one completed and signed by the Bryngelsons (I already have a copy of the deed for that transaction which I will keep with the file) and another completed and signed by the Tates, along with a copy of their deed. We will also need a copy of a map which is mentioned in Item 2, part B or C of the ownership change form.

Once the ownership change has been completed the Tates will probably need to file a Transfer to move the point of diversion from the big well for the pivot to their own well. This can be handled through one of our agents at the office. The cost for a Transfer is \$100.00. Please be aware that water rights not used for five or more consecutive years on a piece of property are subject to forfeiture according to Idaho law.

If you have any questions or if I can be of further assistance, please give me a call at the office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jeanie', written over a horizontal line.
