Subject: Water Right Claim Filed in the Palouse River Basin (PRBA)
Attachments: Web Cheat Sheet.pdf

To: Charles or Roberta Graham
From: Linda Werner, Idaho Department of Water Resources (IDWR)
Subject: Notice of Claim to a Water Right 87-10867

Dear Charles or Roberta;

I'm writing in regard to the claim you filed in the Palouse River Basin Adjudication (PRBA) for the domestic usage from your pond. My job as water resource agent is to review your claim and prepare a recommendation for final court decree. I'm writing to advise you that your claim has been recommended for decree, and you'll be receiving further information about that within the next several weeks, during the upcoming "Notice of Error" process.

In the meantime, I wanted to let you know that with your pond usage, there may be an additional storage component which may be added to your existing claim. This may be done during the Notice of Error process. During this time, you'll also have the opportunity to review your claim and advise us if everything's accurate. We want to ensure that all claims accurately represent the water usage before they go to the water court for decree and we'll ask you to let us know what's incorrect, and how to fix it (as well as to advise us if all is correct) by returning a response form to IDWR.

You'll be receiving this information within the next several weeks. It will describe your water right, and our preliminary recommendation, and give you information as to how to proceed further. You can also view your claim information on our website at www.idwr.idaho.gov. I'm enclosing a web "cheat sheet" to help you navigate the site.

I'm available at the phone number listed below, or this email address, if you have any questions or concerns.

Sincerely,

Linda

Linda A. Werner
