RE: Field examination of a water right claimed
in the Snake River Basin Adjudication

Dear Counselor,

The field staff of this agency may need to conduct water right field examinations of your client's water right claim(s) during the coming season. The field examiner may be visiting your client's property to obtain information necessary to verify the water use.

If a field exam is necessary your client will be contacted directly about the examination unless you contact us otherwise. If you wish to accompany your client at the time of any field examination, or if you have any questions regarding the field examination, you may contact this office.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Dear Mr. Merritt:

This letter is in response to your letter of October 3, 1990.

We are in the process of putting together evidence as requested in the letter. However, I cannot get the evidence to you by November 1st.

If you could extend the time period until approximately December 15th it would be appreciated.

Thank you for your consideration of this request.

RE: City of Paul Adjudication Claim - A36-04083, A36-07206,
A36-07899

Dear Allen:

The claims filed on behalf of the City of Paul indicated that one of the basis for establishing water rights was Beneficial Use.

In October, you wrote a letter requesting the type of proof that will be submitted to support this claim.

If the Department objects to any portion of the claim, it will be much easier to address your requests.

When the Minidoka Project water rights were established, specific acres were not identified. Rather, general breakdowns per section were computed and the total number of acres that were irrigated were identified within a particular parcel.

Over the years, as water use practices have changed, the various acres that are irrigated have also changed. In many situations, additional acres are being irrigated using the same amount of water that was originally established for a particular parcel.

If, after examination, the Department has an objection to any particular irrigated area located within the City of Paul, the City will then obtain affidavits, property tax records, aerial photographs and other evidence as may be required by the Department of Water Resources.

The City of Paul is not claiming water rights greater than those that have been previously established by permit and/or decree. However, the number of acres to which those water rights are appurtenant may have increased due to changes in irrigation practices.

RE: Evidence of Priority for City of Paul and MID
Notices

Dear Mr. Fletcher:

In response to your recent letters on behalf of your client's notices of claim to water rights filed in the Snake River Basin Adjudication; we respectfully request proof of the date of priority for all claims based on Beneficial Use. Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. In the case of Beneficial Use water rights the date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date of a Beneficial Use water right can not be confirmed by field examination, proof must be provided supporting the priority date.

For your reference please find enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. Since the Department can not confirm the priority date the way other elements of the water right are confirmed by field examination we are asking for evidence of the priority shown on the Notices to make the record complete before recommending a Beneficial Use water right to the court.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

MICROFILMED

FEB 03 1993

Please submit the required evidence supporting the priority date(s) by January 10, 1991, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Allen Merritt", with a stylized flourish at the end.

MEMORANDUM

TO: Files 36-04083, 36-07206 & 36-07899

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5201

DATE: October 15, 1998

Transfer 5201 adds a point of diversion under Rights 36-04083, 36-07206 and 36-07899, and changes the place, nature, and season of use under Right 36-07206.

Rights 36-04083 and 36-07899 were developed at different times from the same well for municipal use in the City of Paul. Right 36-07206 was developed from a different well for domestic and irrigation use in Meadow Brook Subdivision and assigned to the city prior to licensing. The SRBA recommendations include domestic use under Right 36-04083 to include use at Minico Jr. H.S. The transfer proposes to clarify the use of these wells by the city within their service area, identifying both wells and municipal use on all three rights.

In order to avoid enlargement through this transfer, Right 36-07206 is limited to the volume developed under the original domestic and irrigation uses. Season of use was modified to year round use and place of use identified as within the city and service area per current standards.

Recommended conditions include non-confirmation of claim, combined right limits, right-of-way, measuring & annual reporting and standard transfer conditions.

Re: Corrected Amended Director's Report
City of Paul's Subcase Nos. 36-04083, 36-07206, and 36-07899
Our File No. 2078.1

Dear Doug:

This letter will confirm our discussions regarding an Approved Transfer for the City of Paul (dated October 16, 1998, the "Transfer") and the July 2000 Amended Director's Reports submitted to the Snake River Basin Adjudication ("SRBA") Court based upon the completed transfer process. As we discussed, the Transfer, as approved, states that the "place of use is within the City of Paul and surrounding service area." However, the corresponding Amended Director's Reports state that the "place of use is within the city limits of Paul."

The purpose of the Corrected Amended Director's Report will be to include the language from the Approved Transfer ("place of use is within the City of Paul and surrounding service area") in the Corrected Amended Director's Reports for the City of Paul's Subcase Nos. 36-04083, 36-07206, and 36-07899.

RE: City of Paul NCAP

Trish,

Jo Beeman called and needs to have a replacement NCAP filed to update the rights 36-04083, -7206 & -7899. Apparently she is anxious that the ADR's filed for these rights do not describe the POU remark properly per the approved transfer. I have edited the eCVR's to reflect the actual language in the transfer approval referencing the "service area" that is delivered municipal water. We used the standard remark of old that specifies the "city limits" and this falls short of the mark with respect to the I.C. changes for 42-202B and 42-222.

I have alerted Don that the remark should be changed. I suppose those of us dealing with claim review and data maintenance need to be aware of these obscure nuances. We'll try to embed needed language where it doesn't fly in the face of reason, or is in error.

Re: City of Paul SRBA Claims 36-04083, 36-07206, and 36-07899
Our File No. 2078

Dear Doug:

The Snake River Basin Adjudication (SRBA) Court plans to issue decrees for the City of Paul's three water rights on January 15, 1998, but as you and I discussed on Friday, January 9, there are some changes which need to be made to the water rights, and the City of Paul would prefer to have these changes in the SRBA decree. Perhaps the most direct route may be for the Idaho Department of Water Resources (IDWR) to issue a Notice of Administrative Proceeding and ask the SRBA Court not to decree the rights while IDWR completes the necessary administrative proceedings.

The two wells which service the City of Paul's municipal system are located in Section 28 (NWSESW) and Section 32 (NENENW) of Township 9 South, Range 23 East. One of the necessary changes involves a typographical error in the point of diversion for a well in Section 32 (36-07206). I attach the IDWR memorandum dated July 5, 1995 discussing this matter. The ten-acre parcel for the well in Section 32 was correctly described for Water Right Nos. 36-04083 and 36-07899. For Water Right No. 36-07206, the ten-acre parcel is shown as the NWNENW and needs to be changed to NENENW. Following our conversation on Friday, January 9, I verified with Rich Rau of the City of Paul that the correct ten-acre parcel is described as the NENENW of Section 32.

Doug Jones
Re: City of Paul
January 12, 1998
Page 2

Another area which could be addressed by a transfer arises from the City's integrated municipal water system. The three water rights each list the two wells as points of diversion; however, the place of use on each of the three rights is different. For example, 36-07206 lists the place of use as Meadowbrook Subdivision; 36-04083 lists the place of use as lands within city limits of Paul and West Minico Junior High School; and 36-07899 lists the place of use as lands within the city limits of Paul. Since both wells supply water within the city limits of Paul and to its extended service area which includes Meadowbrook Subdivision, West Minico Junior High School, and properties between the city limits and West Minico Junior High School, the place of use for all three rights should be shown as lands within city limits of Paul and lands within the service area for the City of Paul's municipal water system. To address these issues, a transfer application and fee will be filed by Wednesday, January 14.

Since these requested changes are actually accomplished transfers predating 1987, the City of Paul would prefer to have its water rights removed from the decree list for January 15 so that these changes ultimately can be decreed in the SRBA.

Sincerely,

BEEMAN & HOFSTETTER, P.C.

RE: SRBA Claim(s) 36-04083, 36-07206, 36-07899
City of Paul

Dear Claimant:

Please find the enclosed copy of the Notice of Administrative Proceeding which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

After IDWR completes the indicated administrative process, and has modified the SRBA claims, you will be forwarded a Notice of Completed Administrative Proceeding. Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett

REMARKS: (Include limitations on CONSUMPTIVE USE for combined rights.)

Domestic use is not consumptive → assume no consumptive use.
Irrigation of lawns is consumptive → NAPP shows approx. 20 acres in sub-division, about 35% of that is irrigated, ∴ determined consumptive use for 7.0 acres of irrigation. Recommend consumptive use of 21.0 acre-ft/annum.

MEMORANDUM

To: FILE A36-04083

From: HELEN HARRINGTON-THORNTON

Date: February 3, 1992

Subject: RECOMMENDED RATE OF DIVERSION

=====

According to documents from the Idaho Department of Public Health for the years 1947, 1949, 1950, and 1955, the well that supplied the municipality had a diversion capacity of 300 gpm. A report from 1946 stated 450 gpm, however, this rate was never referred to in any other supporting documents.

That well has since been abandoned and according to Rich Rau, city supervisor, the point of diversion for the historic beneficial use right is a new well which is also described in right 36-07899.

Since there is sufficient supporting documentation to show a water right from 1920, the rates of diversion for the three rights are as follows, with the diversion rate recommended on the earlier right being decreased from the latest right:

A36-04083	0.67 cfs
A36- ~~07206~~ 7899	0.78 cfs
A36- ~~07866~~ 7206	~~0.84~~ cfs

1.06

2.51 cfs Total Capacity of system (per 1981

field exam)

All three rights divert into the same system. Therefore, both points of diversion are shown on all rights.

A36-04083 - no consumptive use

A36-07206 - consumptive use for Meadowsbrook subdivision

A36-07899 - consumptive use for irrigation use w/ city limits of Paul

RE: Consumptive Use

Conversation: Estimated that 50% of the city's irri-
gation water for homes within city limits was
covered by the system, other 50% covered by MID.
One park uses city system for its water, park is
approx. 140' x 125'. West Minico school & Meadow
Brook subdivision also use system water. The newer
additions all use city water. City limits haven't
changed since before 1980.
