Subject: Re: Water Right Claim 87-11114

Hello: All that I know is that early records of ownership checked at the courthouse suggested that the farm homesite has been used for a century or more, so the person running the session chose that date for me. Ownership records go far back, but I cannot recollect how far. Records at the courthouse were not that complete either, as I recall.

Subject: Water Right Claim 87-11114

Hello Dennis,

I am reviewing your water right claim, 87-11114, for final recommendations from the Department of Water Resources and I have a question regarding the priority date you claimed. According to your claim document, you are claiming a priority year of 1890, however there is no explanation of this claimed year in the remarks section of the form. Do you have any information to support the claim to a priority date in 1890? Any form of documentation of the land being developed in that year would suffice, or if you or someone you know can make an official, written statement saying they have knowledge of the property being developed and a well being built/dug in that year, that can suffice as well.

Thank you, and please feel free to call or email if you would like to discuss this further.

Scott
