Scott: Thank you very much for the response. That date will be fine.

Dennis S.

Dennis,

Based on the information you provided in your statements and the pictures, I can recommend a June 15, 1911 priority date. If you are okay with that, then I do not require any further information. If you still want something earlier then we'll either need a signed affidavit from you or someone else who can testify to some form of knowledge of a specific year of development, or some form of official document showing some form of development.

Please feel free to call me if you have any further questions.

Scott

Mr Scott Storms: This is the hard-to read date of June 15, 1911 for the wall. The net slide shows it as about 30 feet from the small white well house. There are records for domestic inhabitation of over 100 years. I am not sure if anything beyond domestic and livestock use are involved. Please see next slide DS
