REMARKS:

verify 2nd pt of div.
8/3/90 In talking with Mr. Wright he indicated that the water from the Springs originally flowed into Clear Lakes before the stream course was altered to channel the flow to the west. This statement is born out by Top. plat which shows the spring and the stream looping into the NE SW then flowing back toward the east into Clear Lake. It appears that channel which presently conveys the water across the Wright property is a man made conveyance system and not the natural channel. Based on this observation it appears that the P/D is in the NENE SW Sec 2, T9S. R14E. for the fish prop.
