RE: Amended Notice of Claim to Water Right 87-11730 – Change in Water Source
New Claim to a Water Right – 87-12244 for Instream Stockwater Use

Dear Dan,

Per our email exchange on October 13 and 19, 2020, I am sending you an amended notice of claim to water right 87-11733 with the source updated to Groundwater instead of Palouse River, and a new notice of claim to water right 87-12244 for your instream stockwater use. In reviewing the county parcel information and maps of where the stream flows, I described the instream stockwater use as starting where the stream enters your property in the SESW of Sec. 7 Twp 37N Rge 04W, and ended it where it exits your property in Lot 1 (NWNW) of Sec. 18. I am also enclosing a map to help visualize how I have written up the claim. Please review these items, and if you feel there are changes to me made, cross out the current information and fill in what is correct and be sure to initial next to any changes. There is also another \$25 processing fee associated with the new claim, please enclose this fee when you return the signed amended claims and the new claim. All paperwork can be submitted to the following address:
