Re your request for info re my well.

My house was built in 1971. Talked to the couple that we bought the property from in 2005 (Harold/Judy Stubbs). Judy said the well was dug in 1961. Harold who is 91 years old said the property has been in his family since the 40's. He remembers the original homestead that was up by the pump house but can't remember anything else.

I am sure my husband would have had a little more info but unfortunately he passed away in May and this is all the info I could get.

I hope this is the info you need.

Happy Holidays!!!
