RE: EVIDENCE OF PRIORITY DATE

I spoke with this couple and explained the information we were requesting. It seems they were licensed for 2.00fs on 100 Acres under license 36-7438. The claim based on this license lists 132 Acres. I suggested they obtain evidence to show that was irrigated at that time. They said the license was in error since this land was all developed at the same time. They believed Del Coates could show a potato contract for this use.

Then, in 1987 they were pumping excess water and rather than waste it they added some additional lines to pick up this 20 Acre pasture as claimed on A36-14723. I suggested they get additional proof to support this expansion of Acres. Perhaps by the ASCS records who helped finance the expansion.

When we put the land which was watered by the well into hay it pumped more water than was needed so rather than run the extra water down a ditch we put a line on the 20 acres which was in pasture at that time but is now in hay. When the pump is on if you don't run enough lines it blows the valves from too much pressure.

RE: EXPANSION CLAIM 32 Acres IN 1975

12-18-91 3:15 pm I talked to Walt.

I recalled that he filed on his 100 Acre License for 132 acres and another claim for Expansion of 20 Acres. I told him the expansion is OK but I can only allow 100 acres under the License. If he wants to claim the 32 Acres separately I need another claim filed. It appears the proof of priority submitted already supports the two separate expansions. I told him the fee would be \$50⁰⁰ and that we need to get this filed in 15-20 days. He said he would come in.
