1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Priority Date is not correct.

2. Describe the changes you wish to make in the proposed recommendation:

Priority Date for this well should be 1897.

3. Give a brief explanation as to why you disagree with these portions:

Spokesman - Review newspapers on the walls of the old house were dated 1897 which then was a hand dug well. In 1938 a well was drilled to the basalt in the area of the original well. This is the well that I use today.

☐ I AGREE with this proposed recommendation: no changes need to be made.
