2 Rights, one system, Both ground water. - Sprinkler system
(overlap with A & B irrigation district)

A36-7542 is additional acres from the same P/D as A36-7340.

Found same number of acres irrigated as claimed on both rights. Some shifting between Q/Q's from licensed acres to claimed acres was necessary to correspond to the change in irrigation system.

A small portion of the irrigated field in the SE $\frac{1}{4}$ extends into the NE $\frac{1}{4}$ but was not recommended for licensing as it appears to be less than one acre.

Acres differ in some Q/Q's from A & B Ditch Co. water. Change to sprinkler system irrigation covered more ground.

P/D

P/D claimed to 10 acre tract & was marked on ASCS Photo. From NAPP Photo the well seems to be close to the Q/Q line with the SW/SW/SE sec 8.
(Remark as such in Rreport)

No P/U overlap found. Acres within similar Q/Q's. are to complete the total irrigated acre within that Q/Q. The two claims are recommended as separate claims No PPU. KKC

system capacity = 6.34 cfs
