1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity

2. Describe the changes you wish to make in the proposed recommendation:

Change the quantity to: "shall not exceed 13,000 gallons per day"

3. Give a brief explanation as to why you disagree with these portions:

This is a shared well between a church & a home. The home water right is for 13,000 gal per day. Is there a reason that this water right for the church cannot be 13,000 instead of 2500 also?

☒ I AGREE with this proposed recommendation: no changes need to be made.
