1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity from source

2. Describe the changes you wish to make in the proposed recommendation:

from 2500 per day to 13,000 gal per day

3. Give a brief explanation as to why you disagree with these portions:

The shop is an agricultural use, and we have used in excess of 13,000/day in our experience. And we have no reason to believe this need will not continue.

I AGREE with this proposed recommendation: no changes need to be made.
