DESCRIPTIVE SUMMARY

This is a Director's Report of Deferred *De Minimis* Stock Water Use submitted by the Director of the Idaho Department of Water Resources (IDWR).

INTRODUCTION

Motions for Determination of Deferred *De Minimis* Stock Water Use (Motions) and Notices of Claim to Water Right for water right claim nos. 65-23868, 65-23869, 65-23870, 65-23871, 65-23872, 65-23873, 65-23874, 65-23875, 65-23876, 65-23877, 65-23878, 65-23879, 65-23881, 65-23882, 65-23883, 65-23884, 65-23885, 65-23886, 65-23887, 65-23888, 65-23889, 65-23890, 65-23891, 65-23892, 65-23893, 65-23894, 65-23895, 65-23896, 65-23897, 65-23898, 65-23899, 65-23900, 65-23901, 65-23902, 65-23903, 65-23904, 65-23905, 65-23906, 65-23907, 65-23908, 65-23909, 65-23910, 65-23911, 65-23912, 65-23913, 67-15339, 67-15340, 67-15341, 67-15342, 67-15343, 67-15344, 67-15345, 67-15346, 67-15348, 67-15349, 67-15350, 67-15351, 67-15352, 67-15353, 67-15354 and 67-15355 were submitted to the Court on October 2, 2020.

IDWR published notices of the pendency and purpose of the Motions. *See Affidavit of Publication*, filed simultaneously herewith. The Director has now completed his examination of the claims. The examination for the above-mentioned water right claims was conducted by Craig Saxton, Manager, Adjudication Section on behalf of the Director. The materials used in and results of the examination of the elements of claims are discussed below.

DISCUSSION

Priority Date

1. General overview of priority date considerations for stockwater claims on federal land

The Idaho Supreme Court in *Joyce Livestock Co. v. United States of America*, 144 Idaho 1 (2007) made clear ranchers could establish beneficial use instream water rights on federal land

for watering their livestock if the ranchers held a valid grazing permit for grazing livestock on the federal land. The Court also determined that these instream water rights so acquired by ranchers were appurtenant to the ranchers' patented or base property. *Joyce Livestock*, 144 Idaho at 12. The Court remanded for redetermination of the priority date of the water rights because the ranchers claimed priority dates that predated their grazing authorization from the Bureau of Land Management (BLM). *Id.* at 16. The Court noted a BLM Class 1 grazing license could only be issued to a rancher if the rancher had been grazing livestock on the public range for at least five years prior to the enactment of the Taylor Grazing Act in 1934. *Id.* The court held that instream stockwater rights based on BLM Class 1 grazing permits pass with the land as a matter of law, unless the water right is expressly reserved. *Id.* at 14.

Following the remand of *Joyce Livestock Co.* and companion case *LU Ranching Co. v. United States*, 144 Idaho 89 (2007), the SRBA district court determined the priority dates for LU Ranching Co.'s 15 water rights based on applications for grazing permits filed by LU Ranching Co.'s predecessors. *See Memorandum Decision on Remand and Order of Amended Partial Decrees* (SRBA Subcase no. 55-10288B, et al.) (July 3, 2008). Because instream stockwater rights based on Class 1 grazing permits pass with the land as a matter of law, Judge Melanson held that a court determining the priority date of an instream stockwater right under Class 1 licenses "need only look at the earliest date that a water right can be established that is associated with a particular parcel of homestead or base ranch property." *Id.* at 4-5. Recognizing a Class 1 grazing license required grazing that predated the grazing permit application, the court held that a Class 1 grazing license in conjunction with representations of earlier water use made by the claimant is sufficient evidence to establish priority dates predating the Taylor Grazing Act for LU Ranching Co.'s water rights on the federal land. *See Id.* at 7.

Therefore, for beneficial use instream stockwater claims on federal land, IDWR reviews information about base property or properties (initial through current) and grazing license(s)/permit(s) (historical to current).

2. Soulen's claimed priority date

The priority date listed on all of the claims is 3/15/1928. This date is derived from the Application for Grazing Permit filed by Mesa Sheep Company on July 20, 1935 and signed by H. B. Soulen as President of the Mesa Sheep Company. In the grazing permit application, the applicant stated that Mesa Sheep Company's livestock had grazed the lands covered by the permit for the previous seven years from March 15 to January 1. A letter to Mesa Sheep Company from the United States Department of Interior Division of Grazing dated March 19, 1936 stated the Advisory Board of Idaho No. 1 Grazing District had recommended allowance of the application to graze 13,400 sheep and 350 cattle in common on accessible, vacant, unreserved public domain. A Class 1 License dated April 1, 1936 was issued to Mesa Sheep Company for grazing 13,400 sheep and 350 cattle on public lands.

A business entity search on the Idaho Secretary of State's website for Mesa Sheep Company returned two entities. The first entity had an initial filing date of July 25, 1927, and a forfeited status on December 1, 1930. The second entity had an initial filing date of September 5, 1929, and a forfeited status on November 30, 1941. A business entity search on the Idaho Secretary of State's website for Soulen Livestock Co. returned one entity. Soulen Livestock Co. had an initial filing date of March 1, 1965. According to the Secretary of State's website, Soulen Livestock Co. is active and in good standing. The Articles of Incorporation for Soulen Livestock Co. lists Harry B. Soulen, Beulah M. Soulen, Philip B. Soulen, and Erlene C. Soulen as incorporators. Harry B. Soulen signed the Articles of Incorporation as H. B. Soulen, and that signature appears to match the signature of H. B. Soulen on Mesa Sheep Company's July 1935 grazing permit application.

To establish the link between Mesa Sheep Company and Soulen Livestock Co., Soulen Livestock Co. provided a copy of a Bargain and Sale Deed, dated June 11, 1941, between Mesa Sheep Company and a limited partnership formed and operated under the partnership name Soulen Livestock Company. The partners listed on the June 1941 deed are H. B. Soulen, E. G. Van Hoesen and Elizabeth Soulen David. Soulen Livestock Co. also submitted a warranty deed dated March 1, 1965, that conveys numerous parcels of land, including most of the base property listed for the present stock claims, from Soulen Livestock Company, a partnership consisting of H. B. Soulen and Beulah Soulen, husband and wife, Philip B. Soulen and Erlene Soulen, husband and wife, Elizabeth Soulen David and Donald K. David, husband and wife, and E. G. Van Hoeson and Freda Van Hoeson, husband and wife, to Soulen Livestock Co., an Idaho corporation. The signature of H. B. Soulen on the warranty deed appears to match the signature of H. B. Soulen on Mesa Sheep Company's July 1935 grazing permit application.

In addition to the documents listed above, Soulen Livestock Co. also provided a copy of the BLM *Case File Summary Soulen Livestock Company 1960* which includes the following historical summary:

This operation began in the early days and was known as the Mesa Sheep Company when their first application was made in 1935 with Harry B. Soulen as president. The operation remained in the name of Mesa Sheep Company through the 1941 summer license and was changed to the Soulen Livestock Company on the fall license of that same year. There is no document found in the file to show this change. However, Mr. Soulen has remained in control of the operation.

The base property appears to have remained pretty much intact except for minor changes. The 1944 application states, "Lost the Bertelson Lease." There is no indication of what this lease consisted of nor was there any apparent change in the license.

Based on the review of all of the documents described above, there is sufficient evidence to recommend the claimed priority date of 3/15/1928 to Soulen Livestock Co. for the water that was originally appropriated by Mesa Sheep Company.

Points of Diversion

All of the claims filed by Soulen Livestock Co. for use of water within the Paddock Valley Allotment overlap existing water rights decreed to the BLM in the Snake River Basin Adjudication (SRBA). In most cases the claims filed by Soulen Livestock Co. have points of diversion that correspond to points of diversion of the BLM water rights, however, due to the availability of more accurate mapping tools, points of diversion describing beginning or ending stream points for some of the Soulen Livestock Co. recommendations may differ from the point of diversion descriptions on the water rights they are intending to overlap. The differences might include describing a point of diversion location in a different legal description than what is authorized in the overlapping BLM right, or it might include adding or removing a point of diversion.

The recommendations for 65-23877, 65-23878, 65-23894, 65-23895, and 65-23909 overlap BLM water rights 65-19894, 65-19897, 65-20370, 65-20388, and 65-20486 respectively, except for the portions of water rights that are not located within the Paddock Valley Allotment. The Soulen Livestock Co. claims have been recommended with the same or similar ending points of diversion as listed on the overlapping BLM water rights, but have beginning points of diversion at the eastern boundary of the Paddock Valley Allotment.

Source

IDWR verified the claimed sources on a topographic map and recommends all of the claims with the same source as decreed for the overlapping BLM water rights except for 65-

23877 which was recommended with the source described as Little Willow Creek tributary to Big Willow Creek. The overlapping BLM right 65-19894 describes the source as Unnamed Stream tributary to Little Willow Creek. Both recommendation 65-23877 and water right 65-19894 describe the same water source physically, but the recommendation for 65-23877 describes the name of that source consistent with the USGS topographic map.

Place of Use

The claimed beneficial use of the water occurs within the BLM's Paddock Valley Allotment. The base property for this allotment is land owned by Soulen Livestock Co. in Township 11N, Range 02W, Section 27, less the SWNW and the SESE; Township 11N, Range 02W, Section 30; Township 11N, Range 03W, Section 27, less the NW1/4; and Township 12N, Range 03W, Section 24, which is primarily located within the Paddock Valley Allotment. All of the claims are appurtenant to the base property; however, in most cases the places of use described in the claims are consistent with the places of use described in the overlapping BLM water rights. Due to the availability of more accurate mapping tools, the place of use descriptions for some of the Soulen Livestock Co. recommendations differ from the place of use descriptions on the water rights they are intending to overlap. The differences can include a larger or smaller place of use, or a place of use description with a slightly different legal description.

Quantity

All of the claims seek 0.02 cfs as the diversion rate, which is the same diversion rate decreed in the SRBA to the overlapping BLM water rights within the Paddock Valley Allotment.

Purpose and Period of Use

Mesa Sheep Company's Class 1 License authorized the grazing of sheep and cattle on

public lands from March 15, 1936 to June 1, 1936 and from November 1, 1936 to December 1, 1936. The overlapping BLM water rights have the purpose of use listed as stockwater with a year-round (1/1 to 12/31) period of use. The claimed period of use from 1/1 to 12/31 is recommended. The claimed and recommended purpose of use the Paddock Valley Claims is stockwater.

CONCLUSION

All of the claims submitted by Soulen Livestock Co. for watering livestock within the Paddock Valley Allotment are hereby recommended as claimed. IDWR's standard conditions have been added where necessary to further describe specific elements of the water rights.

Pursuant to Judge Wildman's *Order Amending Procedures in the SRBA for Adjudication of Deferred De Minimis Domestic and Stock Water Claims*, dated October 17, 2017, the Director submits this Director's Report of Deferred *De Minimis* Domestic or Stock Water Uses for Claim Nos. 65-23868, 65-23869, 65-23870, 65-23871, 65-23872, 65-23873, 65-23874, 65-23875, 65-23876, 65-23877, 65-23878, 65-23879, 65-23881, 65-23882, 65-23883, 65-23884, 65-23885, 65-23886, 65-23887, 65-23888, 65-23889, 65-23890, 65-23891, 65-23892, 65-23893, 65-23894, 65-23895, 65-23896, 65-23897, 65-23898, 65-23899, 65-23900, 65-23901, 65-23902, 65-23903, 65-23904, 65-23905, 65-23906, 65-23907, 65-23908, 65-23909, 65-23910, 65-23911, 65-23912, 65-23913, 67-15339, 67-15340, 67-15341, 67-15342, 67-15343, 67-15344, 67-15345, 67-15346, 67-15348, 67-15349, 67-15350, 67-15351, 67-15352, 67-15353, 67-15354 and 67-15355, which includes the recommendation of the deferred *de minimis* water right numbers listed above.

Respectfully submitted this 3rd day of May, 2021.
