RE: NOTICE OF CLAIM NO[S]: A36-07615

Dear Mr. Ingram:

We are currently reviewing a Notice of Claim to a Water Right that you filed in the Snake River Basin Adjudication. The pertinent claim number is listed above. In order to complete our review, we need you to provide us with additional information.

Our initial investigation of this claim indicates that there has been a change in the place of use as follows:

<u>Claim No.</u>	<u>Original Place of Use</u>	<u>Claimed Place of Use</u>
A36-07615	8S 23E Sec 5 SW NE 3	8S 23E Sec 5 NE NW 10
	NE NW 8	NW NW 14
	NW NW 12	SW NW 20
	SW NW 20	SE NW 9
	SE NW 23	NE SW 5
	SE SW 14	NW SW 7
		SE SW 15

A water right owner who has made a change in the use of his right prior to November 19, 1987 may claim this change in the Snake River Basin Adjudication. We may recommend the right as changed, however, only if the change meets certain requirements.

Before your claim can be recommended with this change, you must provide us with the date the change was made and submit some evidence tending to support that date. If the change was prior to November 19, 1987, then you must include the month, day and year. If the change occurred after November 19, 1987, then a specific date is not necessary and you need only support that the change occurred after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted to support the date of change.

Your response must be received by the date noted above. If no response is received your claim to water for the new places of use will not be recommended to be decreed.

IDWR may also determine that a field examination is necessary to verify some aspects of your water use. During any field examination, we would appreciate the assistance of someone who is familiar with your water use. If a field examination is necessary, one of our agents will attempt to contact you in May or June to make an appointment.

Thank you for your cooperation. If you have any questions or feel that you need help in any way, please contact me at 327-7934.

Dear Mr. Keen:

In response to your inquiry as to the changes made in place of use of claim No. A36-07615, the enclosed maps will show no changes have been made in the irrigation delivery system after it was inspected by your department and the license granted. The changes were made to accurately show the division of water rights between A36-07615 and the water rights of the A&B Irrigation District. The water from both sources is pumped into the same mainline system.

Map No. 1 shows the original A&B homestead outlined in yellow. Areas outlined in blue had no water rights. Areas outlined in orange were purchased from the Bureau of Reclamation without water rights in 1966.

Map No. 2 shows all lands being irrigated with only the original A&B water.

Map No. 3 shows the farm has been converted from gravity irrigation to sprinklers using the water from the A&B Irrigation District and claim No. 36-07615. This work was completed in the spring of 1980.

Map No. 4 the most current available shows no changes have been made, and the system is exactly the same today as it was when your department inspected it before granting the license.

If any more information is needed please let me know.

Sincerely,

Ralph Ingram
Ralph Ingram

The depreciation schedule from 1980 shows the pump and mainline to move water to all parts of the farm were purchased in 1979. Items 18 & 19 of pages 1 shows pump & mainline acquired in 1976. Items 2 and 3 on page 2 shows pump sprinklers and mainline were acquired in 1979 when the system was modified to its present design. no further changes have been made.

Department of Water Resources

Dear Water Right Claimant(s):

The reverse side of this letter contains a copy of an ***Order Amending Irrigation Period of Use Element in Partial Decree and Incorporating into Partial Decree An Express Statment Regarding General Provisions, Nunc Pro Tunc*** (hereinafter "***Order***") for water right number 36-07615. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The Purpose of the ***Order*** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the ***Order***, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This ***Order*** also incorporates into the ***Partial Decree*** an express statement that the ***Partial Decree*** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This ***Order*** in combination with the ***Partial Decree*** that was issued for this water right on January 15, 1998, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the ***Partial Decree*** to show evidence of the water right. The original of this ***Order*** and the original of the ***Partial Decree*** for this water right are on file with SRBA Court. If you do not have a copy of the original ***Partial Decree***, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the ***Order*** is entered ***Nunc Pro Tunc***, meaning that the ***Order*** will be treated as if it were issued the same date that the ***Partial Decree*** was originally issued.

Sincerely,

Diana Delaney
Case Administrator

Shelly Walter Keen
Water Resource Agent
Adjuication Bureau

Dear Mr. Keen:

In response to your inquiry as to the changes made in place of use of claim No. A36-07615, the enclosed maps will show no changes have been made in the irrigation delivery system after it was inspected by your department and the license granted. The changes were made to accurately show the division of water rights between A36-07615 and the water rights of the A&B Irrigation District. The water from both sources is pumped into the same mainline system.

Map No. 1 shows the original A&B homestead outlined in yellow. Areas outlined in blue had no water rights. Areas outlined in orange were purchased from the Bureau of Reclamation without water rights in 1966.

Map No. 2 shows all lands being irrigated with only the original A&B water.

Map No. 3 shows the farm has been converted from gravity irrigation to sprinklers using the water from the A&B Irrigation District and claim No. 36-07615. This work was completed in the spring of 1980.

Map No. 4 the most current available shows no changes have been made, and the system is exactly the same today as it was when your department inspected it before granting the license.

If any more information is needed please let me know.

Sincerely,

Ralph Ingram
Ralph Ingram

The depreciation schedule from 1980 shows the pump and mainline to move water to all parts of the farm were purchased in 1979. Item 18219 of page 1 shows pump & mainline acquired in 1976. Item 2 and 3 on page 2 show pump sprinklers and mainline were acquired in 1979 when the system was modified to its present design. no further changes have been made.

I called Mark Ingram, attorney, to discuss the claims by his mother, Bonnie Ingram, and his brother, Ralph Ingram. He told me:

- ① Originally Harold Ingram, his father, ^(mark) ~~he~~ owned the land covered by these three claims, along with some other land. Ralph Ingram bought his share in the 1970s.
- ② The 25 acres in section 5 covered by license 36-2679 never was irrigated from the well shown as the p.o.d. for ~~36-2679~~ 36-02679.
- ③ One sprinkler irrigation system covers the land claimed by Bonnie Ingram under A36-02396 and A36-02679.
- ④ A36-02396 + A36-02679 do not overlap A+B Irrig. Dist.
- ⑤ A36-02396 + A36-02679 are from the same well.

10-25-91 I called Ralph Ingram to discuss permissible place of use for A36-07615. After I explained the meaning of permissible p.o.u., he decided to amend his claim in our Twin Falls office to include the entire p.o.u. He will do so ~~later~~ next week.

11/1/91 Allen Merritt called to inform me that Mr. Ingram visited the Southern Region Office to amend his place of use.

Briefly

Water is used in same place as when licensed

He will submit map on where water is used

3 yrs ago A+B started looking at spread acres (land being irrigated which does not have A+B water) then land may be what is put well on.

Well + A+B water conveyance system is the same.

Irrigation of 310 ac combined.

RE: NOTICE OF CLAIM NO[S]: A36-07615

Dear Mr. Ingram:

We are currently reviewing a Notice of Claim to a Water Right that you filed in the Snake River Basin Adjudication. The pertinent claim number is listed above. In order to complete our review, we need you to provide us with additional information.

Our initial investigation of this claim indicates that there has been a change in the place of use as follows:

<u>Claim No.</u>	<u>Original Place of Use</u>	<u>Claimed Place of Use</u>
A36-07615	8S 23E Sec 5 SW NE 3	8S 23E Sec 5 NE NW 10
	NE NW 8	NW NW 14
	NW NW 12	SW NW 20
	SW NW 20	SE NW 9
	SE NW 23	NE SW 5
	SE SW 14	NW SW 7
		SE SW 15

A water right owner who has made a change in the use of his right prior to November 19, 1987 may claim this change in the Snake River Basin Adjudication. We may recommend the right as changed, however, only if the change meets certain requirements.

Before your claim can be recommended with this change, you must provide us with the date the change was made and submit some evidence tending to support that date. If the change was prior to November 19, 1987, then you must include the month, day and year. If the change occurred after November 19, 1987, then a specific date is not necessary and you need only support that the change occurred after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted to support the date of change.

Your response must be received by the date noted above. If no response is received your claim to water for the new places of use will not be recommended to be decreed.

IDWR may also determine that a field examination is necessary to verify some aspects of your water use. During any field examination, we would appreciate the assistance of someone who is familiar with your water use. If a field examination is necessary, one of our agents will attempt to contact you in May or June to make an appointment.

Thank you for your cooperation. If you have any questions or feel that you need help in any way, please contact me at 327-7934.

RE: Field Examination of a Water Right Claimed in the Snake
River Basin Adjudication (SRBA) - A36-07615#

Dear Claimant:

The field staff of this agency plans to conduct water right field examinations in your area during April and May this year. These field examinations are necessary to verify your water use. The identification number of your water right claim which must be examined is shown above. If more than one of your water right claims is to be field examined, the additional claim identification numbers are listed below.

We will attempt to contact you by telephone to schedule a time to field examine your water right claim(s). At the time of the examination, we would appreciate the assistance of you or someone who is familiar with your water system.

If you have any questions regarding the field examination, please telephone me at our Boise office. You can reach me at 1-800-451-4129 or 327-7934.

Sincerely,

rec'd ltr from Shelley.
 7/6 Lib ref! He'll call
 again Tues. Was very
 disgusted that there
 was no one who could help
 him. (sounds like an
 attorney!)
