Director

87-11559 Phone Call Summary 9/02/2020

I spoke with Jameson Bull regarding the above claim on 9/02/2020. The home was built in the early 1900's, and the claimant assumed the well was constructed back then too. He wanted to amend his claim from 6/28/2013 to 1922 based on county year built date information available.

He also said that the irrigation use began after he purchased the property around 2014. I informed him that this broke the mandatory permit requirement, and it would need to be permitted. He understood this.

I sent him an Amended Claim to correct the priority date. On the claim, I kept irrigation as a use. I told the claimant this, and informed him that I would not recommend the irrigation portion of the claim. He understood this and was okay with that.
