KARL J. DREHER, Director

BEFORE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PETITION TO)
CORRECT WATER RIGHT LICENSE)
SUBMITTED BY NORMAN M. SEMANKO)
ON BEHALF OF CHARLES HISAW)

**PRELIMINARY ORDER
CORRECTING LICENSE**

This matter having come before the Department of Water Resources ("Department") as a result of the filing of a petition to correct a water right license, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On February 23, 1979, the Department issued Permit to Appropriate Water No. 36-07835 ("permit") authorizing Charles R. Hisaw and Mary Jo Hisaw ("right holders") to divert groundwater for the irrigation of 368 acres in Lincoln County.
2. The right holders submitted proof of beneficial use for the permit was on February 26, 1980, stating all 368 acres of irrigation had occurred.
3. On July 17, 1980, a Department field examiner ("examiner") conducted an examination to verify the water use developed in accordance with the permit. The examiner reported that the right holders were diverting a maximum of 4.90 cfs from groundwater to irrigate 360 acres.
4. The right holders also had an existing water right license No. 36-02449 authorizing the diversion of 4.23 cfs from groundwater for the irrigation of 309 of the 360 acres reported by the field examiner for the permit.
5. On December 24, 1980, in accordance with the findings of the examiner the Department issued Water Right License No. 36-07835 ("license") authorizing the diversion of 3.13 cfs from groundwater to irrigate 360 acres. The license carried a condition limiting the use of Water Rights 36-07835 and 36-02449 to a combined total of 4.90 cfs and 1440.0 acre feet per annum.
6. On April 26, 1988, Charles R. Hisaw and Pamela Hisaw ("claimants") claimed Water Rights 36-07835 and 36-02449 in the Snake River Basin Adjudication ("SRBA").

7. Department staff investigated the claims and recommended Right 36-07835 be decreed for 360 acres and 0.67 cfs of water with a condition limiting this right when combined with Right 36-02449 to 4.90 cfs and 1440.0 acre feet.
8. On January 22, 1998, the claimants objected to the partial decree issued on Right 36-07835. In the objection the claimants requested that the Department revisit the recommendation and correct it to show the amount of water originally licensed and remove the combined use condition.
9. On June 9, 2000, Norman M. Semanko ("attorney") filed a petition on behalf of the claimants to correct Water Right License 36-07835 by changing the combined use condition limiting this right when combined with License 36-02449 to 5.16 cfs and 1440.0 acre feet.
10. In conjunction with the petition, the claimants submitted information completed by the Magic Valley Groundwater District Hydrographer on May 27, 1997, that the claimants irrigation system produces 5.16 cfs.

CONCLUSIONS OF LAW

1. The claimants are entitled to a water right license recognizing the full beneficial use of water developed in accordance with the permit.
2. The Department should correct the license to authorize a combined total diversion rate of 5.16 cfs from a groundwater source under Water Rights 36-02449 and 36-07835.

ORDER

IT IS HEREBY ORDERED that Water Right License 36-07835 issued by the Department on December 24, 1980, is **CORRECTED** by **REVISING** the combined use condition to state:

This right when combined with License 36-02449 shall not exceed 5.16 cfs or 1440 acre feet per annum.

An Amended Water Right License is prepared to incorporate the corrections hereby ordered.

Dated this 1st day of August, 2000.

Administrator, Water Management Division

INTEROFFICE MEMORANDUM

TO: 36-02449 AND 36-07835

FROM: KELLY K CHRISTENSEN

SUBJECT: CLAIM AMENDMENT REVIEW AND R RECORD CREATION

DATE: 09/22/98

Hisaw filed a request to set aside the decree for the two listed rights. His objections were:

1. The diversion rate for 36-07835 should be as claimed.
2. The combined diversion rate and diversion volume remark should be removed from both rights.

Hisaw amended his claims to remove the combined diversion rate limitation for the two rights on 7-13-98.

MY ACTIONS

I reviewed the claim files and then created an R record for each right. I then changed the diversion rate for 36-07835 back to the licensed rate of 3.13 cfs. As the combined diversion rate limitation was part of the original licenses, I left that remark in the current recommendation. I also changed the season of use to match the licensed season of use.

Although I had created an R record for 36-02449, I made no changes from the recommendation.

RE: Modification of Partial Decree No. 36-07835

Dear Mr. Hisaw:

The purpose of this letter is to acknowledge your visit to this office on January 20, 1998, regarding the modification of Partial Decree No. 36-07835 in the Snake River Basin Adjudication. It is my understanding that you desire to modify your partial decree by disregarding the combined limitation remark of 4.90 cfs from the original license and have the full licensed diversion rate of 3.13 cfs.

Modifications of the type that you have proposed are required to be reviewed by the Fifth Judicial Court in Twin Falls. By copy of this letter this office is notifying the Court of your requested change. You can anticipate that the Court will be contacting you to describe the method by which you can proceed with this requested change.

Please advise me if you desire assistance in identifying information relative to your partial decree.

Sincerely,

Douglas Jones

SUBJECT: OBJECTION TO PARTIAL DECREE
phone call (.) walk-in (X)

Mr. Hisaw had recently received his partial decrees and was upset that the diversion rate for 36-07835 was reduced to .67 cfs and he wondered why that happened? I explained it was because of the "combined use limitation" remark in the original license that limited the total diversion of this right and 36-02449 to 4.90 cfs. (36-02449 was for 4.23 cfs which left .67 cfs for this right to total 4.90 cfs together.) This was apparently due to the capacity of his system, which was measured during the licensing exam. He said he never noticed that remark before and assumed he would get the 3.13 cfs he was licensed for. He wanted to know what he could do about it now? I told him he would need to contact the SRBA court. I gave him copies of the field exam and his GIS map...
