Because Eagle Ridge subdivision is for 8 houses I propose a license for .32 CFM

After looking at the permanence of what well happen when this is done, I do not want to come up short of water. I have complete all the paper work with the Health Dept. and covered all my bases and plated this subdivision for an investment. I don't want to lose that.

RE: Snake River Basin Adjudication (SRBA)
Notice of Error - A36-07896

Dear Mr. Morgan:

We are in receipt of the Notice of Error on the above referenced claim. We are not making any changes to the recommendation at this time.

License 36-07896 is the basis of claim for your water right. This license was established through a perfection process, including a field examination conducted in 1987. We are unable to recommend a rate of flow for more than the license which is 0.04 cfs.

In order to establish a water right for additional water for the use you describe, you may need to file an applicatio for permit (enclosed). Additionally, I have enclosed a brochure which describes the ways water rights are established in Idaho.

If you still do not agree with the proposed IDWR recommendation to the court, you may file an objection with the court after you receive the final recommendation of your water right. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely,

Helen Harrington-Thornton

H. REMARKS AND OVERLAP REVIEW ANALYSIS

At time of examination there was only 1 home constructed (Hs). Another lot had been sold but there was no development started. The meter at the well had at one time been a 3 Hp instead of 2 Hp but the 3 Hp was too large of a meter for only one home being plumbed into the system.
