RE: SRBA Claim(s) 36-2316, 36-7963

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Your address has also been updated on decreed water rights 36-7123, 36-8050, 36-10182, 36-10183 and 36-10184. Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett
Technical Records Specialist

SCHEMATIC DIAGRAM OF SYSTEM

(Include distance from pump to measuring device, if applicable.)

Point of diversion: NE 1/4 SW 1/4, Sec 7; Township 9 South
 Range 16 East

Standing Hat Ranch Inc.

Pg 1/3

Found: one system with 4 claims and ditch Co. water
CLAIMS A36-2316 - GWSOURCE A36-7963 wastewater source
A36-7123 - GWSOURCE A36-8050 GWSOURCE
NORTH SIDE CANAL Co. WATER.

Analysis:

1. Gov. Lot problems.

Claims A36-2316 and A36-7123 were licensed for 40 acres within Gov lots that only contained approx. 33 acres each. The recommended acres in excess of the 33 acres are recognised as existing but are to be shifted to the NE NW of Sec 7. This Quarter was not claimed by the canal Co. as the owner had indicated.

I recommend shifting the licensed acres to reflect what the department recognised as irrigated. I do not feel that the shifting of those acres reflect an expansion in the then existing P/U. These Gov. lots are, lots 6 & 7 in Sec 6, and lots 1 & 2 in Sec 7.

The original survey for gov. lots along the Snake River was readjusted with the initial lots being further divided eg lot 3 & 8 of Sec 7 was originally just lot 3. As far as acre determination per lot is concerned, the arbitrary boundary between those lots make accurate per lot recommendations difficult. eg (the lots 3 & 8 of Sec 7 together contain 13 acres (fairly accurate) but the recommended 10 & 3 split may not be accurate.)

MICROFILMED
FEB 05 1993

General Overview continued:

3. P/U per right analysis:

GROUNDWATER RIGHTS; A36-2316, A36-7123, AND A36-7963

The only P/U overlap found was in the S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec 6 between A36-7123 and A36-8050. (see attached land list)
 A36-7123 has a 0.011 CFS/Acre diversion rate and A36-8050 has a 0.0162 CFS/Acre diversion rate (see System Analysis Pg 3)
 Therefore both rights should include those acres in the acres per right (KØ6 remark) recommendation.

4. Diversion Rate Analysis:

The groundwater diversions were measured in 1987 and found to be 10.81 CFS (combined)
 the legal limit for foundations is ~~14.3~~ CFS $6.99\% \cdot 0.2 = 13.98$ CFS
 total of licensed GW rights is 10.36 cfs

Therefore the limiting factor for diversion rate (used in Remark EØ~~4~~⁵) is 10.36 CFS.

5. Waste water right A36-7963

I am recognizing all 329 claimed acres as existing within the permissible P/U. I accept the 329 acres as being irrigated when the licensing field exam was conducted but recommend some different acre totals in the existing Q/Qs and Gov. Lots.

This right when combined with the GW rights is capable of supplying ^{13.99}~~13.88~~ cfs the legal limit for the foundations ~~14.3~~ CFS is the limiting factor to be used in Remark EØ5.
