Subject: RE: UI - PRBA Claims
Attachments: U of I Claim Needs Before Recommendation.xlsx

Thank you Gerard.

As the Olson property is no-longer being irrigated through water right 87-7026, that parcel will be excluded from our recommended place of use. The pond claims I referred to were discussed and detailed in the spread sheet I shared prior to our previous zoom meeting on March 9th. I've attached that sheet again here for reference. The pond claims requiring evidence include: 87-4064, 87-10059, 87-11962, 87-11963, 87-11964, 87-11965, and 87-11966. I'm happy to provide assistance with any further questions or concerns that arise.

~Evan

Subject: RE: UI - PRBA Claims

Evan, I will work with UI water managers to see if we can connect the materials submitted with the various claims. Which pond claims are you referring to...the ponds at the arboretum on the Moscow campus? Finally, UI does not irrigate the Bernard Olson parcel and I am uncertain why that parcel was included in the diagram and included in the place of use. Once I can find out if UI water managers can connect the materials submitted to specific claims, I will try to forward that list to you and then we can connect by phone to address your remaining questions. Thanks for your help with this!

Subject: RE: UI - PRBA Claims

Good Morning Travis,

Based on the claimed priority dates, I'm assuming those are amendments for claims 87-11967 & 87-11968. Those amended claims look good and should be ready for submission. As far as the additional evidence in the drop box, the ideal solution is just to email me a list detailing which file names in that drop box are to be associated with which claims. That list can then be profiled along with the appropriate evidence in each claim file. Once all the evidence has been applied and reviewed, I will know better if additional information is needed, which will make that phone call more productive. My schedule is fairly free next week and I'll be happy to discuss these further; just let me know what time works best for you.

After a brief review of that evidence, I saw nothing in there relating to the pond claims. Will there be additional evidence submitted for those? Also, we previously discussed claim, 87-7026 which includes land owned by Bernard Olson. Do you know yet if his land is irrigated through that water right and if it is intended to be included in the place of use?

Thanks,

~Evan

Subject: UI - PRBA Claims

Evan,

Please see the attached draft amended claims. I wanted you to have a copy before we sign and file. Also, Gerard and Elmer will coordinate with you for a call next week if that works to go over the information that was provided to you in the dropbox. I am sending that to them today as well so they will have it in the same format. I think a call will help you understand what information is submitted and if we need to better coordinate with the claims associated with that they can try and inform you and we can follow up on the 16th.

I likely won't be able to make the call next week due to a hearing in Boise, but that's ok, it should at least help prepare and inform our discussions for the 16th.

Thanks

Travis
