1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

- ① Purpose of use
- ② Place of use
- ③ Map of place of use

2. Describe the changes you wish to make in the proposed recommendation:

- ① Purpose should state domestic and irrigation. Domestic should state for 1 home and complete granny unit/cottage in shop building.
- ② Place of use should state lots 2 and 3.
- ③ Domestic place of use map should encompass both home and shop building and at least one acre around both buildings for garden, orchard, etc. Irrigation place of use map should encompass entire property.

3. Give a brief explanation as to why you disagree with these portions:

- ① Purpose of use should include both existing structures. Irrigation should be included because it is farmland and is being farmed.
- ② Place of use must match legal description of property, i.e., lots 2 and 3.
- ③ Domestic map should include existing structures as well as sufficient land (a minimum of 1 acre) to support rural homestead, i.e., garden, orchard, landscaping. Irrigation map should encompass entire property as it is farmland and is being farmed. This is not a city lot. It is a rural homestead and farmland.

I AGREE with this proposed recommendation: no changes need to be made.
