RE: Dairy Diversion Volumes + Consumptive Use and
Overlap of 2 claims.

There are only 2 homes on the property - a house built in 1921 and later replaced. The second home was built in 1954. There is only one dairy operation described as follows:

Milk Cows - 85, Dry Stock - 120.

The cows are milked twice a day and the cows are washed manually.

The wash water goes to a lagoon approximately 200' x 150' (0.69 ac.) and up to 10' deep.

The dairy operation started in 1921 with 6 or 8 cows and has gradually increased to its present size.

There are 2 wells connected to a common system that serves the homes and the dairy.

Mr. Taylor said the second well was drilled in 1976 as evidenced by the date marked in the concrete block at the top of the well. Well driller's Report on file indicates the date was Feb. 15, 1977. An amended claim was sent to Mr. Taylor on 3/23/92. R.V.W.
