Southern Region Office

Comes now Reid S. Stewart, of Cassia County, State of Idaho, who being first duly sworn on oath, disposes and says:

- 1) That in 1975 I was the owner of certain properties located in the S1/2 of Section 15 and the N1/2 of Section 22 of Township 7 South, Range 21 East, Boise Meridian, now owned by C. S. Zollinger.
- 2) That initially only a portion of the 520 acre of this farm were irrigated, due to the ineffective flood irrigation methods then being employed (as defined by water right license G-28045 (A36-02397).
- 3) That in April of 1975 I contracted with Pitcher Irrigation Company to install a sprinkler irrigation system which would allow essentially the entire properties to be irrigated (see attached letter from Rex Pitcher).

In witness hereof I set my hand this 3rd day of February, 1992.

THIS RT. IS CLAIMED AS AN EXPANSION RT. FOR AN ADDITIONAL 154 AC. WHICH WAS REALIZED WHEN THE SYSTEM WAS CHANGED FROM GRAVITY TO SPRINKLERS. THE INTENT APPEARS TO HAVE BEEN TO BRING EACH OF THE TRACT ACRES COVERED BY A36-02397, A LICENSED RT, UP TO AS NEAR TO 40 AC. AS PRACTICABLE. THIS WAS APPARENTLY REALIZED ON ALL BUT THE NENE, S22, T7S, R21E, WHERE AN ADDITIONAL 19 AC WAS CLAIMED FOR A36-10030, WHICH ADDED TO A36-02397'S 28 AC IN THAT TRACT BRINGS THE TOTAL TO 47 AC. RE: Proposed Recommendation for Water Right(s) No(s): 36-02351,
02387, 02397, 10030 & 07784 A & B

Dear Claimants:

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim(s) listed above. Your NOE indicates that you would like the recommendation to show a longer season of use for irrigation. For the reasons states below, the season of use that will be recommended in the Director's Report will remain as proposed.

The proposed recommendation is based on irrigation season of use standards adopted by the director for the various regions throughout the state. These standards are based on the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

In addition, since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for irrigation outside the irrigation season under certain conditions. The conditions are that the water is beneficially used, as determined by the director; that all water rights with a period of use outside the irrigation season regardless of priority, are satisfied; and that the use does not conflict with the public interest as determined by the director. This proposed general provision will be included in the Director's Report.

If you still disagree with IDWR's recommendations you will have an opportuntiy to file an objection to the Director's report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Sincerely,

Marci Sterling

REMARKS: affidavit from Reid S. Stewart says sprinkler system installed in 4/75, allowing more acres to be irrigated.

Letter from Rex Pitcher of Pitcher Irrigation Company states that a sprinkler system was installed for Mr. Reid in April, 1975, to cover about 520 acres.

These two pieces of evidence appear to support the claimed priority date.

Because this is a second presumption expansion claim, there are no existing records. Apparently this was one of the first expansion claims taken (5-26-1988) and diversion rate recommendations for these claims were not yet established. In Basin 36 we are now recommending 1" or .02 cfs per acre for second presumption expansion claims.
