1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The point of disagreement is with the recommended rate of 0.09 cfs.
VS. the claimed amount of .09 cfs

2. Describe the changes you wish to make in the proposed recommendation:

Our well can provide .09 cfs and is considered an asset to our property. We would like the apportioned amount to reflect the capacity it can provide.

3. Give a brief explanation as to why you disagree with these portions:

Although the single family home is limited to 13,000 gallons and 1/2 acre irrigation, it is important to us to legally have the .09 cfs amount recorded, as it is the amount the well can produce.

I AGREE with this proposed recommendation: no changes need to be made.
