Re: Data Entry Records: A-36-00128 - A-36-132; A-36-02038; and
A-36-14-5444 - A-36-15452

Dear Mr. Clelland:

Jack Haugrud, U.S. Department of Justice, has requested that I respond to your letters to him of September 28 and October 1, 1992. Enclosed are three declarations and supporting documentation in response to your request for support (a) for the priority dates for beneficial use claims of the United States for Hagerman National Fish Hatchery and Hagerman Field Station, and Minidoka National Wildlife Refuge; and (b) for the change in use of certain decreed rights for the Hagerman facilities.

In addition, we have a few comments, as you requested, regarding the accuracy of the computer-generated claims for the above-described facilities.

(i) In order to expedite service to the U.S. Fish and Wildlife Service, please amend the Portland address to read as follows:

U.S. Department of the Interior
Fish and Wildlife Service, Region 1
Attn: Division of Engineering
911 N.E. 11th Avenue
Portland, Oregon 97232

(ii) The place of use on all Hagerman Claims as described by your office includes several quarter sections in which there are no Hagerman facilities. Please delete the following:

<u>TOWNSHIP</u>	<u>RANGE</u>	<u>SECTION</u>	<u>QUARTER OF QUARTER</u>	
8S	14E	6	NE	NE
8S	14E	6	NW	NE
8S	14E	6	SE	NE
8S	14E	6	NE	NW
8S	14E	6	NW	NW
8S	14E	6	SW	NW
8S	14E	6	NW	SW
8S	14E	6	SW	SW

MICROFILMED
FEB 09 1993

(iii) The consumptive use entry has not been completed on any of the claim forms. They should be corrected to read as follows:

A 36-00128 = none
 A 36-00129 = none
 A 36-00130 = none
 A 36-00131 = none
 A 36-00132 = 44 acre feet per annum.
 A 36-02038 = none
 A 36-15444 = none
 A 36-15445 = none
 A 36-15446 = none
 A 36-15447 = none
 A 36-15448 = none
 A 36-15449 = none
 A 36-15450 = none
 A 36-15451 = none
 A 36-15452 = none

(iv) SRBA Claim A 36-0129: The provision in Item 13, Other Water Rights Used, was not included in the computer generated forms and needs to be added as follows:

"See Remarks."

(v) SRBA Claim A 36-0130: In the Remarks section, delete reference to 36-00130 as other water rights used since the claim is for that water right.

(vi) SRBA Claim A 36-0132: In Item 9, Non-Irrigation Uses, a number of uses were deleted in the computerized claim. These need to be added:

(a) Domestic/Stockwater "Service buildings, visitor facilities, and 2 stock units."

(b) Fish Propagation "103 raceways and 470 tanks, jars, and trays, capacity: 261,000 cubic feet."

In Item 14, Remarks, your language implies that water from the Hatchery's beneficial use claim for Spring 8 is commingled with the water under this claim but it is water from the Hatchery's decreed right to water for Spring 8 that is commingled.

(vii) SRBA Claim A 36-15444: You have deleted our notice in Item 14, Remarks, that a portion of this claim is claimed in the alternative. The following should be added to Remarks.

"7.7 cfs of this claim is claimed as alternative to IDWR water right No. 36-2308."

MICROFILMED
 FEB 09 1993

Also in Item 14, Remarks; the reference should be to 7 other beneficial use water rights, not 8; and 36-02308 is a licensed water right not a decreed right.

(viii) SRBA Claim A 36-15445: In Item 14, Remarks, the reference should be to 7 other beneficial use rights, not 8.

(ix) SRBA Claim A 36-15446: In Item 14, Remarks, the reference should be to 7 other beneficial use rights, not 8.

(x) SRBA CLAIM A 36-15450: In Item 14, Remarks, you have included one comment that is not correct for this claim; the comment applies to another claim. The following needs to be deleted:

"Water under water right No. 36-02308 and water under one beneficial use claim is diverted at the same location as water under this claim."

Also in Item 14, Remarks, the statement regarding commingling should be revised to read:

"Water from Len Lewis Spring is commingled with flows from Springs Nos. 12, 13, 14, and 15 and Main Springs, in total or in part."

Please call Jack Haugrud (202) 272-4234 or Geoff Garver (202) 272-4692, U.S. Department of Justice, if you have any questions.

Sincerely,

For the Regional Solicitor

GENERAL NOTICE OF UNITED
STATES' CLAIMS TO WATER
ACQUIRED UNDER STATE AND
FEDERAL LAW IN REPORTING
AREA 03 (IDWR ADMININSTRATIVE
BASIN 36)

2. The claims filed on behalf of the U.S. Bureau of Reclamation are minor revisions to claims filed earlier with the Idaho Department of Water Resources. These revised claims amend and supplement the claims filed earlier.

MICROFILMED
FEB 09 1993

3. The claims filed on behalf of the U.S. Army Corps of Engineers involve state water rights acquired through purchase. To avoid any future misunderstanding, it should be noted that the use and control of water in connection with projects operated by the U.S. Army Corps of Engineers do not in general involve water rights or water rights claims. Because these projects were authorized through an assertion of the federal government's Commerce Clause power under the United States Constitution, they do not ordinarily involve water rights that are subject to this adjudication. By filing these state-law claims in Reporting Area 03, the United States does not intend to waive any right, power or authority it may have under federal law or the United States Constitution.

4. By filing these claims, the United States does not waive its right to defer adjudication of de minimus claims as authorized by Court Order dated January 17, 1989.

5. By filing these claims, the United States does not waive its rights to file additional federal claims based on the reserved rights doctrine as authorized by the Court or to file information on the use of water as a matter of comity and policy.

Re: In re: General Adjudication of Rights to the Use
of Water from the Snake River Basin Water System,
Civil No. 39576.

Dear Mr. Shaw:

Pursuant to the Court's Order Establishing Adjudication Reporting Areas, General Sequence and Test Reporting Areas, dated May 19, 1992, enclosed are the United States' consumptive use claims for Reporting Area 03 (IDWR Administrative Basin 36). A general Notice of Claims is provided which gives an overview of the claims as well as providing the required verification and notice of appearance.

These claims, along with any other claims that may have been previously lodged with you, constitute the United States' consumptive use claims for Reporting Area 03.

The enclosed documents constitute the actual claims of the United States. To the extent that agencies provide you with computer tapes of the claims, they are provided solely for your convenience and if there is any discrepancy between the contents of the tape and the actual claims, the actual claims control.

Your cooperation in this matter is appreciated. Should you have any questions, please contact me at (202) 272-4134.

Sincerely,

K. Jack Haugrud

DEAR SIRS,

PLEASE FIND ENCLOSED COPIES OF THE COMPUTER GENERATED CLAIMS AS THEY APPEAR IN OUR DATA BASE. PLEASE REVIEW THESE RECORDS FOR ACCURACY AS THEY ARE BASED ON THE CLAIMS YOU SUBMITTED IN THE SNAKE RIVER BASIN ADJUDICATION.

YOUR RECORDS INDICATE THE CLAIMS LISTED ABOVE, IN THE RIGHT HAND COLUMN, ARE BASED UPON A "BENEFICIAL USE" OF WATER. FOR WATER RIGHTS OF THIS TYPE, THE CLAIMED "PRIORITY DATE" MUST BE SUBSTANTIATED WITH SUPPORTING EVIDENCE.

BEFORE THE DEPARTMENT CAN MAKE A RECOMMENDATION TO THE COURT TO DECREE THE CLAIM, SOME EVIDENCE OF THE PRIORITY DATE MUST BE SUBMITTED. WE ARE ENCLOSING A BROCHURE OUTLINING THE TYPES OF EVIDENCE YOU MAY SUBMIT. WE REQUEST THAT YOU SUBMIT YOUR EVIDENCE OF PRIORITY AS SOON AS POSSIBLE. IF WE DO NOT RECEIVE THE REQUESTED DOCUMENTATION, YOUR CLAIM WILL BE RECOMMENDED FOR DISALLOWAL DUE TO LACK OF EVIDENCE SUPPORTING ANY PRIORITY DATE.

*** PLEASE SUBMIT THE REQUIRED EVIDENCE SUPPORTING THE PRIORITY DATE BY OCTOBER 12, 1992. ***

Dear Mr. Haugrud:

Regarding the above referenced Notices of Claim filed in the name of USDI Fish and Wildlife Service, you received a letter from Steve Clelland of our Department requesting Evidence of Priority by October 12, 1992.

In addition, please supply us with maps, drawings, or other material describing the pond and raceway volumes as of the dates claimed. This information may be in the form of maps, engineering design specifications, or other documentation that supports the development of the facility volumes as of the dates shown in the Date of Priority on the Notices of Claim.

The decreed rights were originally decreed for irrigation purposes. Please supply us with documents supporting the change in the nature of use including the dates when the changes occurred.

Regarding A36-15452, please clarify the method of diversion used to divert the spring and seeps to beneficial use. The claim does not describe a diversion system.

Please submit this information by October 12, 1992 directly to Steve Clelland, IDWR - Southern Region, 222 Shoshone St.,

RE: APPLICATION FOR PERMIT NO. 36-07917
Department of Water Resources
Southern Region

Gentlemen:

The department of Water Resources (IDWR) is currently reviewing relatively old applications for permit which are pending before the department. Our files show that on May 5, 1980, the Fish & Wildlife Service (Service) filed the above referenced application in connection with the Hagerman National Fish Hatchery near Hagerman, Idaho.

26-07917
The application proposed the diversion of 79 cubic feet per second (cfs) of water from Springs tributary to Riley Creek and Bickle Ditch from March 15 to September 15 each year and 95 cfs from September 16 through March 14 each year. The points of diversion were described on the application as within the SW1/4NE1/4, NE1/4SE1/4 and NW1/4SE1/4 Section 6, T8S, R14E, B.M. The last correspondence in the file is dated February 1988.

The Snake River Basin Adjudication (SRBA) records of the department show that the Service has filed a number of claims in that proceeding and the department has recommended the following claims to the SRBA court as valid:

36-00128, 36-15444, 36-15450, 36-00130, 36-15446, 36-15448A, 36-15448B, 36-00129, 36-15445, 36-00132, 36-15448A, 36-15448B, 36-00132, 36-15448A, 36-15448B, 36-15448A, 36-15448B, 36-15449, 36-15451, 36-00131, 36-15447, 36-00131 and 36-15447.

From my review of this matter, application no. 36-07917 appears to be unneeded and should be removed from department records, since the rights of the Service have been claimed and recommended to the SRBA court. Enclosed is a relinquishment form for your consideration and use.

I will appreciate your review of this matter and your relinquishment of the application which appears to be duplicative

RE: APPLICATION FOR PERMIT NO. 36-07917
Department of Water Resources
Southern Region

Gentlemen:

The department of Water Resources (IDWR) is currently reviewing relatively old applications for permit which are pending before the department. Our files show that on May 5, 1980, the Fish & Wildlife Service (Service) filed the above referenced application in connection with the Hagerman National Fish Hatchery near Hagerman, Idaho.

26-07917
The application proposed the diversion of 79 cubic feet per second (cfs) of water from Springs tributary to Riley Creek and Bickle Ditch from March 15 to September 15 each year and 95 cfs from September 16 through March 14 each year. The points of diversion were described on the application as within the SW1/4NE1/4, NE1/4SE1/4 and NW1/4SE1/4 Section 6, T8S, R14E, B.M. The last correspondence in the file is dated February 1988.

The Snake River Basin Adjudication (SRBA) records of the department show that the Service has filed a number of claims in that proceeding and the department has recommended the following claims to the SRBA court as valid:

36-00128, 36-15444, 36-15450, 36-00130, 36-15446, 36-15448A, 36-15448B, 36-00129, 36-15445, 36-00132, 36-15448A, 36-15448B, 36-00132, 36-15448A, 36-15448B, 36-15448A, 36-15448B, 36-15449, 36-15451, 36-00131, 36-15447, 36-00131 and 36-15447.

From my review of this matter, application no. 36-07917 appears to be unneeded and should be removed from department records, since the rights of the Service have been claimed and recommended to the SRBA court. Enclosed is a relinquishment form for your consideration and use.

I will appreciate your review of this matter and your relinquishment of the application which appears to be duplicative

of the other rights of the Service. If you have questions or if I can provide additional information, please feel free to contact me or our Southern Regional office in Twin Falls.

Sincerely,

A handwritten signature in dark ink, appearing to read "L. Glen Saxton". The signature is fluid and cursive, with the first name "L." being small and the last name "Saxton" being larger and more prominent.

Review of Historical Volume
for springs #15 & #16 by SCC 10-24-92

EX: G 8-10-1959

IF-ID-27-84.0

Review: A36-15449

By STEVE CLELLAND
10-24-92

Source is Spring #15.

In the 1932 map, ex: A, this spring is listed as being used for alfalfa irrigation. By 1950, ex: D, it is now used in the same pond as spring #16, len Lewis Spring. Volume is based on the calculations made from the drawings of this pond in ex: D.

Diversion Rate initially based on the 1932 map measurement was revised after receiving the Hatchery measurement that support the 4.5 cfs as claimed.

** Volume of this right should be limited when used with right A36-15450, spring #16; to the 43,275 cubic ft. listed in Remarks. They are both representative of the same ponds from which the figure was calculated upon. This limit was left out of the recommendation

To: Steve Clelland 208-736-3037

From: Barbara Scott-Brier *BS*

Subject: Peak flows from various sources

(i) Riley Creek

We claim peak flow of 6 cfs which is split between decreed right #00130 (1^{1.5} cfs) and beneficial use right #15446 (4.5) cfs.

The draft report only gives 3.86 cfs for #15446.

SEE DOCUMENT: "March 1980 Record of Water Supply Measurements, Hagerman NFH"

LOCATION No. 8 Riley Creek 2675 gpm [= 5.96 cfs]

(ii) Bickle Spring Creek

We claim peak flow of 22.3 cfs which is split between decreed right #00128 (2 cfs) and beneficial use right #15444 (20.3) cfs.

The draft report only gives 18.3 cfs for #15444.

SEE DOCUMENT: "November 1978 Record of Water Supply Measurement, Hagerman NFH"

LOCATION No. 11 Bickle Dam 10,017 gpm [= 22.32 cfs]

(iii) Spring #15

We claim peak flow of 4.5 cfs.

The draft report only gives 4.36 cfs.

SEE DOCUMENT: "November 1989 Record of Water Supply Measurement..."

LOCATION No. 2 Spring No. 15 2,021 gpm [= 4.503 cfs]

MICROFILMED
FEB 09 1993

10-24-92
Page 2

(iv) Spring 17

We claim 4.9 peak flow - beneficial use right # 15451.

The draft report only gives 4.01.

SEE DOCUMENT "August 1991 Record of Water Supply Measurements..." LOCATION NO. 4 SPRING # 17

2062 gpm [= 4.59 cfs]

NOTE: We have not yet located the document showing 4.9 cfs but we are still looking. Also, note that earlier records were estimates ^{for spring #17} + this record is a measured rate, after installation of a v-notch weir, for spring #17.

(v) LEW LEWIS SPRING

We claim a peak diversion rate of 24 cfs.

The draft report only gives 21.2 (BASIS?)

SEE DOCUMENT "March 1980 Record of Water Supply Measurements..." LOCATION NO. 1 BRADFORD DCH

10588 gpm (= 23.59 cfs).

NOTE: We are still looking for other documentation.

CONVERSATION MEMORANDUM

EMPLOYEE: STEVE CLELLAND

FILE USFW CLAIMS

RE: Proof of evidence of Priority & Historical Use Evidence

DATE 10-5-92

NAME OF PARTY

BARBARA SCOTT-BREIR

(Fish & Wildlife Attorney) Dept of Interior

she provided: Her # 503-231-2139

- OR -

FAX: 503-231-2166

RANDY SCHMELLER 503-231-6145

- OR -

FAX: 503-231-6259

She called to find out more of what Helen Thornton and I have requested by letters. We discussed the historical development of the fish propagation (from instream ponds to raceways) and/or considered possible examples of proof since not much is recorded.

I mentioned the need for a right back to 1933 may not be required if solid proof can support a later date.

She was concerned about the 12th & 14th Deadline dates. I said the dates will stand but get your information in ASAP. We both realized the time constraints of these claims; with NOE and the new Director's Report plus review of these claims time is short.

She gave the above numbers & names to help avoid any future mailing delays of information &/or questions.

RE: UPDATE ON PROOF OF PRIORITIES & FLOWS

DATE 10-15-92

NAME OF PARTY

Barbara Scott-Brier

(503)-231-2139

(FISH & WILDLIFE ATT.)

I called to see if they have responded to our request for information. She said they would be mailing it by overnight mail tonight; I should have it Friday.

She Dave Shaw suggested I call and explain our concern of the 1982 Expansion. We have the June 1980 ASCS color aerial slide photo which shows less raceways than currently used.

She explained again that much of the early uses were in-stream uses on Riley Creek and one of its tributaries. For example, Hatchery Lake was much larger than now. The early fish culture was less scientific and all the water was diverted and ponded for use.

Over the years the concrete raceways developed to use the same flow rates while raising more fish.

Apparently the Hatchery facility is at the maximum development; Hatchery personnel told her the water available is now the controlling factor in the size of the operation.

I asked about the Steadhead use and reduced operation during the year. She said they operate year around and may have less flow in some months.

On asking about a field exam or conversation with Hagerman personnel, she asked if we first contact her office.
