RE: RESPONSE TO NOTICE OF ERROR FOR CLAIMS 36-00113B AND
36-07565

Dear Mr Strom

RE: 36-00113B

The claim received date is not the priority of your water right. It is just the date that your claim was filed. The priority date for this claim is recommended as 6-26-1881.

The Director has reviewed the period of use for the Hagerman Valley and has approved that irrigation rights should be recommended with a period of use being, 3-15 to 11-15.

Your claim is recommended with the source being Billingsley Creek (in the source field) and the conveyance system being Padgett Ditch (in the remarks field). All claims are being recommended in a similar manner as a matter of convention.

Again, as a matter of convention, the units of measurement are not shown for the diversion rate or the volume as CFS and AFY are the legal standards used for units of measurement for all water rights.

RE: CLAIM 36-07565

Reference to the diversion method is within your right as 'Diversion Means'. This field just did not print out on the copy that you received.

Also as a matter of convention the place of use is not described within a ten acre quarter. Only the point of diversion is currently being defined that narrowly.

As your requests are not substantive, I do not recommend changing the proposed recommendation.

If you still do not agree with the proposed IDWR recommendations to the court, you may file an objection with the court after you receive the final recommendation of your water right. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely
