RE: Snake River Basin Adjudication (SRBA)
Response to a Notice of Error

RECEIVED

OCT 01 1992

Department of Water Resources
Southern Region Office

Dear Claimant:

IDWR has received the notice of error you filed in response to our proposed recommendations for your SRBA notice of claim, which are referenced above. Your notice of error indicates that you would like some changes to your water right recommendation.

IDWR's water right recommendation is based on the water use you claimed. IDWR cannot recommend your water right for more water and more uses than you originally claimed. Therefore, before IDWR can consider making the changes that you suggest, you must amend your original notice of claim.

In addition, you will need to submit clear evidence to show that the changes you request reflect historic beneficial use, not recent development, of the water you claim. This evidence may be affidavits from individuals, tax records, or any other information that supports the historic nature of the changes you are claiming.

I have enclosed a computer-generated copy of your notice of claim as IDWR proposes to recommend it. In order to amend it, strike out the incorrect information, insert the correct information, and initial the changes. Then, sign the notice of claim before a notary public and return it to IDWR along with your supporting documentation by October 12, 1992. Your prompt response is necessary to ensure that the documents can be reviewed and processed in time for the filing of the Basin 36 Director's Report. Please mail your notices to:

II. STATEMENT OF THE RESPONSE

3. ☒ Quantity: I respond to the objection concerning:

3a. ☒ The total quantity of water used in cubic feet per second.

REASONS SUPPORTING EACH BOX CHECKED

IDWR HEREBY SUBMITS THIS RESPONSE PURSUANT TO THE COURT'S FEBRUARY 15, 1994, ORDER GRANTING MOTION TO FILE LATE OBJECTION. IDWR ALSO INTENDS THIS RESPONSE TO CONSTITUTE ITS SUPPLEMENTAL DIRECTOR'S REPORT REGARDING THIS RECOMMENDED WATER RIGHT, SUBMITTED PURSUANT TO THE PROVISIONS OF IDAHO CODE SECTION 42-1412 (2) AND (4), AS AMENDED EFFECTIVE APRIL 12, 1994, TO THE EXTENT IT SHOULD BE DETERMINED THAT SUCH AMENDMENT MAY BE APPLICABLE TO THIS SUBCASE.

With regard to Statement of the Objection item 3.a., and all allegations of the objection regarding that objection item, IDWR reports as follows: It recommended the same quantity of water as claimed. IDWR further reports that it typically recommends the quantity of water used as an instantaneous diversion rate expressed in cubic feet per second, as provided for by Idaho Code

Section 42-1411. Where a right is recommended for more than one use, the diversion rates for the separate uses are not necessarily additive, since the limit for each use is the quantity of water that is beneficially used, and since the total quantity recommended for a water right cannot exceed the claimant's diversion capacity. This claimant has provided IDWR with information indicating that his present maximum diversion (pumping) capacity is approximately .05 cfs. In the present case the quantity of water that the claimant has claimed, and is entitled to use under this right as recommended, is .05 cfs, of which the total diversion rate of .05 cfs may be used for watering 200 head of stock and .04 cfs may be used for domestic purposes. This means that the claimant may divert any amount of water up to a maximum diversion rate of .04 cfs for domestic use, any amount of water up to a maximum diversion rate of .05 cfs for stock watering, or any amount of water for both uses together so long as the total amount diverted for both uses together at any given point in time does not exceed .05 cfs.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 9 and Box 9a were checked because the Place of Use includes federal land. The claimant has no valid authorization for this claimed use of the federal property. Boxes 3, 3a, and Box 10 were checked because the quantity of water is overstated to the extent the water would be improperly used on federally owned land.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The Directors report should be changed to recommend disallowance of this claim in part. The Place(s) of Use for Domestic and Stockwater should be changed to T07s R15E S27 SWSW.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☐ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____
