RE: Snake River Basin Adjudication (SRBA)
Notice of Claim #A36-10910

Dear Mr. Schlechter:

Thank you for returning the signed address change letter we sent Wilhelm Schlechter. When you lined through 'Wilhelm' and printed 'William' in the address block, it caused me to pause. Thinking I made a typographical error in your name, I checked the microfilm. The Warranty Deed submitted with the March, 1990 ownership change shows Wilhelm and Monica Schlechter. The ownership change form is signed 'W. Schlechter', as you signed our address change letter, but printed on the form by the claimants is 'Wilhelm Schlechter and Monica Schlechter'.

Did you change your name? Are you a relation of Wilhelm and Monica Schlechter? Is this an ownership change? I have enclosed a form for your possible use if the claimant name has changed. As you can see, we are confused. Please enlighten us so we can change our records appropriately.

Thank you for your assistance.

Sincerely,

S. Sherman

IMPORTANT WATER RIGHTS INFORMATION

SPECIAL NOTICE TO CLAIMANTS OF SMALL DOMESTIC AND STOCKWATER RIGHTS IN THE SNAKE RIVER BASIN ADJUDICATION FOR MORE INFORMATION CALL (208) 334-2510

In the past, you filed a notice of claim to a water right for domestic and/or stockwater (D&S) use in the Snake River Basin Adjudication (SRBA). In response to concerns expressed by many members of the public as to the requirement to file a notice of claim for small D&S water rights in the SRBA, IDWR sought approval of a special procedure for the adjudication of such water rights. After lengthy negotiations with the U. S. Department of Justice, a special procedure was devised that will relieve small D&S users of the requirement to file a Notice of Claim for such water rights at this time. The District Court in the SRBA has approved this special procedure.

Since notices of claims may be filed, but are no longer required to be filed for small D&S water rights in the SRBA, persons who filed a claim for small D & S uses prior to the adoption of this special procedure may withdraw their notice of claim and obtain a refund of the filing fee. If you choose to withdraw your claim you will need the following information:

CLAIM NUMBER: A36-10910
RECEIPT NUMBER: C003669

CLAIM FEE: \$25.00

WITHDRAWAL REQUEST MUST BE MAILED BEFORE 11/10/1989

4787

Please carefully read the following information to determine if your water right qualifies for the special procedure and if you wish to withdraw your notice of claim. If you do wish to withdraw your notice of claim, please complete the form on the last page of this notice and return it to the address shown on the back page by the date shown above.

MICROFILMED
FEB 10 1993

If you do NOT withdraw your notice of claim, it will remain on file with IDWR for investigation, inclusion in the Director's Report, and inclusion in the decree of water rights, in accordance with the adjudication procedures set forth by statute. It is IDWR's recommendation that the best (and cheapest) way to assure the security of your small D&S water right is to NOT withdraw the claim and allow the right to be adjudicated. If you do NOT wish to withdraw your notice of claim to a small D&S water right, you need do nothing in response to this notice and you will be notified when your right is recommended to the court.

THE SPECIAL PROCEDURE FOR SMALL DOMESTIC AND STOCKWATER RIGHTS

A notice of claim may, but is not required to be, filed for small D&S water rights in the SRBA at this time. The fee for filing a notice of claim to a small D&S water right at this time is \$25.00. If a notice of claim is filed at this time the claim will be reviewed as part of IDWR's investigation of water rights, included in the Director's Report which contains recommendations as to water rights to be decreed, and included in the district court's decree of water rights, in accordance with the adjudication procedures set forth by statute in Title 42, Chapter 14, of the Idaho Code.

A small D&S water right will not be forfeited and the priority date will not be lost if a notice of claim for the water right is not filed in the SRBA at this time. The owner of a small D&S water right may file a motion with the court to have the water right adjudicated when the need arises at a later date. ("Adjudicated" means determined by the district court and included in the district court's decree of water rights.) The procedure for adjudicating a small D&S water right at a later date is described in an order by the district court and is similar to the supplemental adjudication procedure set forth at Idaho Code 42-1405. If a motion to have a small D&S water right adjudicated is filed at a later date, the claimant will be required to bear the cost of filing the motion and serving notice of the motion and to pay IDWR's cost of investigating and preparing a report of the water right claimed. These costs are likely to be more than \$25.00.

Small D&S water rights will not be subject to distribution by a watermaster in a water district unless all of the small D&S water rights have been adjudicated, or unless the director of IDWR determines that distribution of small D&S water rights by the watermaster is necessary. ("Not subject to distribution by a watermaster" means that the watermaster will not shut off small D&S water rights to provide water for senior water rights, and will not shut off other water rights to provide water for a senior small D&S water right.)

If the director determines that distribution of small D&S water rights in a water district is necessary, then the owner of a small D&S water right that has not been adjudicated will be required to have the water right adjudicated in order to have it distributed by the watermaster. Also, the owner of a small D&S water right that has not been adjudicated will be required to agree to have it adjudicated before the owner can seek approval of a change of the water right (such as a change in point of diversion, change in place of use, change in nature of use, etc.)

There are two limitations that will apply when the owner of a small D&S water right files a motion with the district court in the SRBA to have the water right adjudicated at a later date. First, the water right owner will only be allowed to claim a water right that is within the definition of small D&S use, as defined by the adjudication statute. (The definition of small D&S use is discussed below.) Second, the extent of a small D&S water right is limited by actual beneficial use. There

is no presumption that a small D&S use is entitled to the full 13,000 gallons per day that is permitted to be claimed as a small D&S water right.

All potential claimants of water rights in the SRBA will continue to be joined in the adjudication ("joined" means served with the Commencement Notice) and will be bound by any decrees entered in the adjudication. This includes owners of small D&S water rights, whether or not a notice of claim is filed for the small D&S water right at this time.

DEFINITION OF SMALL DOMESTIC AND STOCKWATER USE

The special procedure is available for water rights used solely for small domestic and stockwater uses, as those terms are defined by statute. Idaho Code 42-1401A(5) provides that domestic use includes the use of water for homes, organization camps, public campgrounds, livestock, and any other purpose in connection therewith, including irrigation of up to one half (1/2) acre of land, if the total use is not in excess of 13,000 gallons per day. That section further provides that domestic use does not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments. Rule 4,1,2. of the Adjudications Rules and Regulations adopted by IDWR provides that domestic use includes single-ownership, multiple-family domestic use, so long as the total amount of water diverted does not exceed 13,000 gallons per day. Idaho Code 42-1405(12) defines stockwater use as the use of water solely for livestock or wildlife where the total use does not exceed 13,000 gallons per day. Domestic use can include stockwater use (so long as the total use does not exceed 13,000 gallons per day), or the stockwater use can be claimed as a separate water right.

A typical small domestic use may be a well used for a single family residence, including up to one half (1/2) acre of lawn and garden. Other types of domestic use may also qualify. Further explanation of the definition of domestic use is provided below.

DOMESTIC USE

Based on the statute and the rules, there are five prerequisites that must be met for a domestic use to be eligible for the special procedure:

1. The total amount of water diverted cannot exceed 13,000 gallons per day.
2. The total amount of land irrigated cannot exceed one half (1/2) acre and must be in connection with a campground or a home.
3.
 - a. Campground use: The use must be for a campground or organization camp or a use in connection therewith. This may include "park and camp" campgrounds, campgrounds with trailer hook-ups and/or cabins, or picnic/rest areas.
 - b. Domestic use: The use must be for a home, where people live, or a use in connection with the home.
4. The campground or home(s) must be in single-ownership, but can be multiple-family. "Single ownership" means that the entire property for which water is claimed must be owned by the same person or group of people. "Owned by the same group of people" means that each member of the group is an owner of the entire property for which water is claimed. For example, water for several vacation cabins, each of which is owned by a different person or group of people, does not qualify as one domestic water right; but each vacation cabin may qualify as a

separate domestic water right. But two homes, each of which are owned by the same person or group of people, may qualify for the special procedure as one domestic use if the use meets the other four requirements.

5. a. Campground use: The campground must not be a commercial or business establishment. A campground owned by a non-profit organization or public agency may qualify, but a campground operated by a for-profit business does not.

b. Domestic use: The use cannot be for a commercial or business establishment. Some examples of uses which may qualify as domestic include: Single or multiple family residential units (such as multi-plexes or apartment buildings) whether or not some or all of the units are rentals; a house used as a home, even if part of the house is used for a business operated by an occupant of the home; non-profit boarding houses; and farming uses in connection with a home. Some examples of non-domestic commercial uses include: for profit boarding houses, mobile home parks, hotels or motels, or houses used solely for a business (such as some day care centers and offices).

SHOULD I FILE A NOTICE OF CLAIM FOR MY SMALL D&S WATER RIGHT?

1. As a claimant of a small D&S water right you have paid a \$25.00 fee to file a notice of claim to a water right in the SRBA. If the owner of a small D&S water right files a motion to have the water right adjudicated later, the owner will be required to pay the cost of filing the motion, serving the notice of the motion, and IDWR's cost of investigating and preparing a report of the water right claimed. It will cost more to do it later than to do it now.

2. If the small D&S water user a) is having problems getting water pursuant to their water right, b) does expect to have such problems in the future, or c) does expect to seek approval of a change of the water right in the future, then adjudication of the water right at this time will be of greater benefit to the water user.

3. If it is not clear whether the use is within the definition of small D&S use, then the water user may benefit from filing the notice of claim at this time. If the water user does not file at this time, and it is later determined that the use exceeds the definition of a small D&S water right, then the water user will be limited to claiming that portion of the use, if any, that is within the definition.

4. If the small D&S water user has not filed any notices of claims in the SRBA, then the water user will not be on the list of claimants who will receive the notice of filing the Director's Report, which will include notice of the opportunity and the deadline for filing objections to the recommendations in the Director's Report with the District Court. To make sure that the small D&S water user does receive the notice of filing the Director's Report, the water user can either file the notice of claim (\$25.00) or get a subscription to the docket sheet (the annual subscription fee for the docket sheet is \$7.50 for calendar year 1989, and may go up slightly in later years).

5. Some lending institutions are currently requiring that an adjudication claim be filed before they will loan money to purchase property. If this trend continues, lenders may require that a small D&S water right be adjudicated before the lender will finance purchase of the property.

It is IDWR's recommendations that the best (and cheapest) way to assure the security of your small D&S water right is to **not withdraw** your claim and allow the water right to be adjudicated at this time.
