Re: Palouse River Basin Adjudication
Notice(s) of Claim 87-10060, 87-11427

Dear Mr. Frank,

Per our conversation on 8/10/2021, I am attaching copies of the recommendations for water rights 87-10060 (Pond) and 87-11427 (well for house). Please review the recommendations and let us know if you have questions. If you disagree with the recommendations, you can file an objection and be heard by the Adjudication Court. I assume you have already received copies of the **Notice** that includes instructions for how to file an objection, but I am including another copy attached to this e-mail. If you do wish to file an objection, any IDWR office or the SRBA court can assist you in finding the objection forms.

In addition, I have listed below several common water uses associated with ponds. If you want to use your pond for a new water use that isn't authorized under 87-10060, you will need to file an Application for Permit to establish a new water right for that new use of water. The forms for an Application for permit can be found on IDWR's Forms page below:

Forms Page:

<https://idwr.idaho.gov/form/water-rights-forms/>

Once you are in the Forms page, navigate to New Water rights and you can select to file an application for permit online or using a paper application:

— New Water Rights

- [File an Application for Permit Online](#)
- [Application for Permit](#)
- [Application for Permit Instructions](#)

Applications will be processed out of the Coeur d'Alene office of IDWR but you can call any of our offices with questions.
