1. Pursuant to authority given by the Commissioner of the Bureau of Reclamation, thereunto duly authorized by the Secretary of the Interior, the undersigned hereby accepts a license to erect and operate and maintain a turnout structure adjacent to the D-7 Main Drain, located in Sec. 35, T. 7 S., R. 24 E., B.M., such ditch being part of and used

in connection with the Minidoka Project, Bureau of Reclamation, constructed pursuant to the act of Congress approved June 17, 1902 (32 Stat., 388), and acts amendatory thereof or supplementary thereto, at a point in Tract K where the D-7-3 Drain intersects the D-7 Main Drain

Upon such revocation the aforesaid structure or structures and all accessories shall be removed without delay at the expense of the Licensee (A. C. Wendt) 11/23/59

This license shall be considered renewed and the charge payable as stated hereinafter unless terminated by the Licensee in writing before the 31st day of December.

4. The aforesaid structure or structures shall be so erected as not to obstruct in any manner the flow of water in the canals, laterals, or drain ditches of the United States, or to interfere in any manner whatsoever with the construction, operation, and maintenance of any part of the Project.

5. In the erection of the aforesaid structure or structures the following specifications and conditions must be complied with:

(a) Construction, operation and maintenance of the structure and pump shall be at the sole cost of the Licensee and shall be under the supervision of the Project Superintendent of the Minidoka Project of the Bureau of Reclamation

6. Covenant against Contingent Fees. Licensee warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial agencies maintained by the licensee for the purpose of securing business. 7. Non-Discrimination Clause. In connection with the performance under this license, the licensee agrees not to discriminate against any employee or applicant for employment because of race, religion, color, or national origin. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The licensee agrees to post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the Project Manager setting forth the provisions of the non-discrimination clause. The licensee further agrees to insert the foregoing provision in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials.

8. This license is granted for the purpose of the licensee utilizing drain water for irrigating 40 acres of land located in Tract K, Sec. 35, T. 7 S., R. 24 E., B. M., by pumping 30 miner's inches of water. A flat rate of \$3.50 per acre shall be charged for 40 acres, totaling \$140.00. The acreage is determined by dividing the pump diversion by .75 of an inch at the point of delivery. Payment therefor shall be made on or before April 1st of each year the first year of this license being 1960.

9. It is understood that the water is primarily for other project lands and is only temporarily in the drain. The use of drainage water being a temporary use, this license shall not be construed as creating a water right for any land irrigated regardless of how long temporary water is secured hereunder. The United States does not warrant a water supply and shall not be held responsible for the availability or nonavailability of a sufficient supply of water at any time or for the quantity of water which may thus be available. The Licensee is entitled to the use of the water whenever it is available.

10. No member of, or Delegate to Congress, or Resident Commissioner shall be admitted to any share of part of this license, or to any benefit that may arise herefrom, but this restriction shall not be construed to extend to this license if made with a Corporation or Company for its general benefit.

In 1989 I was made responsible for correlating the records and maps of the A & B Irrigation District which showed places of use as farm units to correspond to the Idaho Department of Water Resources record system that details the places of use by 40 acre tracts, Sections, and Township and Range.

This required contact with Virgil Temple, Manager of the A & B Irrigation District, and Diana Warburton, Office Manager of the District, to interpret some of the records they supplied and to explain changes that have occurred over time. These changes included some changes in points of diversion as well as places of use.

The places of use also correspond to aerial photos of the irrigation areas taken in 1976 and infrared aerial photos taken in 1987.

I have some knowledge of the historical operation of the A & B Irrigation District through intermittent (during 1967 to 1970) contacts with the people of the District through my employment with the Agricultural Research Service of the U.S. Department of Agriculture at Kimberly, ID.

In response to Statement of the Objection items 1, 11, and 14, and all allegations of the objection regarding these items, IDWR responds as follows.

IDWR is informed and therefore believes that water diverted pursuant to this right is used for the irrigation of lands within the A & B Irrigation District pursuant to a contract between the district and the United States. Confirmation of this contract in the description of the water right is not necessary to define the water right.
