ADDENDUM TO
APPLICATION FOR TRANSFER
BY
THE NATURE CONSERVANCY

RECEIVED

JUL 30 1993

Department of Water Resources

The following is an Addendum to the Application for Office
Transfer submitted by THE NATURE CONSERVANCY:

PART 1

B.6.d Remarks: Applicant proposes to lease the water rights to William J. Swanson the holder of Application for Permit 37-08726 (the "Swanson Application"). The Swanson Application seeks the right to divert 2.5 cfs from Silver Creek from Jan 1 through Dec. 31 for wildlife habitat purposes. The Swanson's project is to enhance and develop some lost wetlands along a stretch of Silver Creek as it passes through their property. Dr. Charles Brockway has calculated there will be a loss of approximately 0.3 cfs in the amount of water returned to Silver Creek compared to the amount diverted. There must be compensation for this loss during the irrigation season.

The Swansons have committed to restricting further development of their property and to enhancing the wildlife habitat through the donation of a conservation easement to the Applicant. Applicant desires to assist and cooperate with the Swansons in preserving these important values for their property by transferring the water rights to the Swanson project where they will be diverted into the system together with the 2.5 cfs under the Swanson application for wildlife habitat purposes. The amount of the return flow will be measured to accurately determine the loss. The amount of the transferred water rights will then be adjusted so the return flows to Silver Creek are 2.5 cfs. These measurements will take place over the two (2) year term of the lease. It is anticipated that the Swansons will then permanently acquire from Applicant that portion of the water rights determined to be necessary to fully compensate for losses in their project.

PART 2

Applicant owns one-half (1/2) of each of these rights, which are decreed from Butte Creek, but actually delivered from Silver Creek (the other one-half (1/2) of the rights is actually delivered from Loving Creek - see Claims Nos. A37-00351A and A37-00352A). The record place of use is incorrect for all portions of these rights due to unrecorded transfers. Applicant intends
