I had looked at this stuff in 2007 trying to tie out a multitude of ownership changes although I did not save much in the way of notes and so I do not recall all the details.

In reviewing the water rights backfile there are several transfers that were withdrawn because of the forfeiture issue for non use. Forfeiture ignored in the final aj process (1995 ruling).

We are setting with

37-387B	0.13 cfs	active	6.3 ac fm T-3314 approved July 6, 1987 Bk file pgs 85-90
37-387A	3.37 and .50 cfs	split	103.7 ac fm T 3361 approved Jan 5, 1988 Bk File pgs 56-61 Transfer added POD.
387A split through the next transfer			
37-387C	3.37 cfs	active	103.7 ac Fm <u>T-3595</u> approved Feb 7, 1990 Bk File pgs 46-51
37-387D	0.50 cfs	active	13.5 ac Fm <u>T-3595</u> approved Feb 7, 1990 Bk File pgs 46-51

T-3595 split the 103.7 acres into 13.5 ac for D and left 90.2 ac on the remaining untransferred POU. Corey has a memo in the backfile that discusses a lot of this. Bk file Pg 147 – 149

An argument for the recommended POU of 103.7 could be that none of the approved transfers actually addressed the POU for the historic POU therefore although the transfers reduced the POU to 90.2 acres that that was a bogus number just made up and the reality is that the POU is really 103.7 acres. This can be supported by the recommended shape which is approximately 99 ac.

Do you want to get into the fray or do you just want to let Barker/Hobdey vs Speck to resolve the POU?

Maybe a second set of eyes to confirm my observations?

Hi Kelly

Yours was the only agent name I wrote in my notes from the initial hrg. Seems like you mentioned something about this the other day. Yours or do you know? Speck & Hobdey / Barker are hashing things out. I calendared to you. Thanks - Vicki

Kelly, my feeling is that we keep your information about the transfers, and the potential for more acreage, in the background while we wait to see where Speck and Hobdey get with their negotiations. Then, assuming they come up with a proposed settlement we evaluate the settlement in light of that info to see if (1) it works, and (2) we can live with it. NBS

Jim,

If you reduce acres don't you also reduce the amount of water.
The right is for 165 inches which is a little more than 2 inches per acre,
how can your client justify that amount, or the Department recommend
the same. I refer you to 42-220, I believe the burden is on your client
to show that more than an inch to the acre is necessary.
