

**DIRECTOR'S REPORT OF DEFERRED
DE MINIMIS STOCK WATER USE**

Claim No. 55-13999

In Re SRBA
Twin Falls County Civil Case No. 39576

Report to the SRBA District Court

Prepared by the Idaho Department of Water Resources
Gary Spackman, Director
Craig L. Saxton, Manager, Adjudication Section

September 13th, 2021

DESCRIPTIVE SUMMARY

This is a Director's Report of Deferred *De Minimis* Stock Water Use submitted by the Director of the Idaho Department of Water Resources (IDWR).

INTRODUCTION

A Motion for Determination of Deferred *De Minimis* Stock Water Use (Motion) and Notice of Claim to Water Right for water right claim no. 55-13999 were submitted to the Court on September 28, 2020. IDWR published a notice of the pendency and purpose of the Motion. *See Affidavit of Publication*, filed simultaneously herewith. The Director has now completed his examination of the claim. The examination for the above-mentioned water right claim was conducted by Craig L. Saxton, Adjudication Section Manager, on behalf of the Director. The materials used in and results of the examination of the elements of the claim are discussed below.

DISCUSSION

Priority Date

Tim Lequerica, President of Lequerica & Sons Inc., filed claim no. 55-13999 on behalf of Lequerica & Sons Inc., for the instream stockwater use. The claimed priority date of May 27, 1920, is supported by land patent #751618¹ and #578450² issued to Lee Williams on May 27, 1920 and April 17, 1917 respectively, and land patent #412911 issued to Thomas Smith on September 13, 1913, that together include all the claimed place of use.

The claimed priority date of May 27, 1920, is consistent with the issued date of the more

¹ Land Patent #751618 was established under 1877 Desert Land Act allowed settlers in some arid regions to acquire up to 640 acres of public lands by purchase if they irrigated the land. It is reasonable to assume that applicants would have stock that drank from available water sources.

² Land Patent #578450 and #355221 were established under the Homestead Act of 1862. To receive a patent, applicants were required to live on the property for 5 years for the purpose of settlement and cultivation. It's reasonable to assume that applicants would have stock that drank from available water sources. IDWR has regularly accepted land patents as evidence of instream or non-diverted stock water use.

junior of the patents covering the claimed place of use. The priority date is recommended as claimed.

Points of Diversion

The claimed points of diversion are in Township 9S, Range 5W, Sections 13 and 24, and represent the beginning points and ending points for instream stockwater. The claimed points of diversion were verified by identifying stream locations using USGS Quadrangle maps. The points of diversion are recommended as claimed.

Source

The sources of water include Corral Creek and the unnamed streams tributary to Corral Creek within the claimed place of use. The recommended sources of water are Corral Creek tributary to Cabin Creek and Unnamed Stream tributary to Corral Creek and can be verified using the USGS quadrangle maps.

Place of Use

The claim uses the public land survey to describe the place of use and includes each quarter-quarter or government lot between the beginning and ending points that Corral Creek and the unnamed streams passes through.

The claimed place of use is entirely within Owyhee County parcel numbers RP09S05W130600, and RP09S05W242400. According to the Owyhee County property records Lequerica & Sons Inc. own both parcels.

Quantity

The quantity claimed is for 0.02 cfs. The typical diversion rate recommended for claims for watering stock directly from a stream is 0.02 cfs. This rate is consistent with diversion rates

claimed for *de minimis* instream stockwater use.

Purpose and Period of Use

The extent of the water use can be described as in-stream *de minimis* stockwater use. Water used for stockwater purposes is generally recommended for year-round use if year-round use is claimed.

CONCLUSION

There is sufficient evidence to recommend claim 55-13999 for the instream watering of livestock from a Corral Creek tributary Cabin Creek and the unnamed streams that are tributary to Corral Creek.

Respectfully submitted this 13th day of September, 2021.

A handwritten signature in blue ink, reading "Craig L. Saxton", is positioned above a horizontal line.

CRAIG L. SAXTON
Manager, Adjudication Section

CERTIFICATE OF SERVICE

I certify that on September 13, 2021, I caused to be served a true and correct copy of this Director's Report of Deferred *De Minimis* Domestic or Stock Water Use, to the following persons, in the manner indicated and addressed as follows:

1. Original to:

Clerk of the District Court
