In Re SRBA

Twin Falls County Civil Case No. 39576

Report to the SRBA District Court

Prepared by the Idaho Department of Water Resources
Gary Spackman, Director
Craig L. Saxton, Manager, Adjudication Section

September 17, 2021

DESCRIPTIVE SUMMARY

This is a Director's Report of Deferred *De Minimis* Domestic and/or Stock Water Use submitted by the Director of the Idaho Department of Water Resources (IDWR).

INTRODUCTION

A Motion for Determination of Deferred *De Minimis* Domestic and/or Stock Water Use (Motion), as well as a Notice of Claim to Water Right, was submitted to the Court on July 23, 2020, for water right claim nos. 67-15271, 67-15279, 67-15280, 67-15281, 67-15282, 67-15283, 67-15284, 67-15285, 67-15286, 67-15287, 67-15288, and 67-15289. The examination was conducted by Craig L. Saxton, Manager, Adjudication Section, on behalf of the Director. The materials used in and results of the examination of the elements of water right claims are discussed below.

DISCUSSION

Priority Date

1. General overview of priority date considerations for stockwater claims on federal land

The Idaho Supreme Court in *Joyce Livestock Co. v. United States of America*, 144 Idaho 1 (2007) made clear ranchers could establish beneficial use instream water rights on federal land for watering their livestock if the ranchers held a valid grazing permit for grazing livestock on the federal land. The Court also determined that these instream water rights so acquired by ranchers were appurtenant to the ranchers' patented or base property. *Joyce Livestock*, 144 Idaho at 12. The Court remanded for redetermination of the priority date of the water rights because the ranchers claimed priority dates that predated their grazing authorization from the Bureau of Land Management (BLM). *Id.* at 16. The Court noted a BLM Class 1 grazing license could only be issued to a rancher if the rancher had been grazing livestock on the public range for at least

five years prior to the enactment of the Taylor Grazing Act in 1934. *Id.* The court held that instream stockwater rights based on BLM Class 1 grazing permits pass with the land as a matter of law, unless the water right is expressly reserved. *Id.* at 14.

Following the remand of *Joyce Livestock Co.* and companion case *LU Ranching Co. v. United States*, 144 Idaho 89 (2007), the SRBA district court determined the priority dates for LU Ranching Co.'s 15 water rights based on applications for grazing permits filed by LU Ranching Co.'s predecessors. *See Memorandum Decision on Remand and Order of Amended Partial Decrees* (SRBA Subcase no. 55-10288B, et al.) (July 3, 2008). Because instream stockwater rights based on Class 1 grazing permits pass with the land as a matter of law, Judge Melanson held that a court determining the priority date of an instream stockwater right under Class 1 licenses "need only look at the earliest date that a water right can be established that is associated with a particular parcel of homestead or base ranch property." *Id.* at 4-5. Recognizing a Class 1 grazing license required grazing that predated the grazing permit application, the court held that a Class 1 grazing license in conjunction with representations of earlier water use made by the claimant is sufficient evidence to establish priority dates predating the Taylor Grazing Act for LU Ranching Co.'s water rights on the federal land. *See Id.* at 7.

Effective July 1, 2021, the Idaho Legislature passed House Bill No. 186 which modified Section 42-1411, Idaho Code, to instruct the Director of the Idaho Department of Water Resources to accept the date of the first grazing permit issued on the federal grazing allotment to establish the date of priority and that there shall be a rebuttable presumption that the claimant's base property relates back to the base property when the first grazing permit was issued on the federal grazing land or when water was first applied to beneficial use on the federal land.

Therefore, for beneficial use instream stockwater claims on federal land, IDWR reviews information about the earliest available grazing permit applicable to the federal grazing allotment

which the claimant has authorization to graze stock.

2. Hood's claimed priority date

The priority date on all the claims is December 28, 1896. This date is derived from the base property's Homestead Certificate #2762 and Land Patent #222034. On May 26, 1908, the United States granted David G. Edwards a portion of what is now the claimed base property. On July 27, 1935, Charles R. Edwards submitted an Application for Grazing to the U.S. Department of the Interior. Mr. Edwards states on the application that he has previously used the lands for grazing for the past 40 years indicating that stock had been on the property since the claimed priority date. Additionally, Charles' father David G. Edwards received Homestead Certificate #2762 on May 26, 1908 granting him a portion of the current based property.

A Class 1 License for 250 cattle dated October 27 1936, was issued to Charles R Edwards & Son for grazing 250 cattle on public lands. The Hoods have a grazing permit for Horse Flat issued March 14, 2013. The grazing permit documentation includes a deed dated August 28, 2021, that grants ownership of Charles Edwards' base property to the Hoods.

Point of Diversion

The above listed claims filed by Keith R. and Karen Hood are for use of water within the Horse Flat Allotment. Each point of diversion represents a beginning or ending point along a stream that is identified as an instream water source.

Source

IDWR verified the claimed sources on a topographic map and recommends the claims consistent with the USGS topographic map.

Hood Water Right Numbers	Source	Tributary
67-15271	Unnamed Stream	Camp Creek
67-15279	Unnamed Stream	Spring Creek
67-15280	Unnamed Stream	Spring Creek
67-15281	Unnamed Stream	Spring Creek
67-15282	Unnamed Stream	Spring Creek
67-15283	Unnamed Stream	Camp Creek
67-15284	Unnamed Stream	Spring Creek
67-15285	Spring Creek	Camp Creek
67-15286	Unnamed Stream	Spring Creek
67-15287	Unnamed Stream	Camp Creek
67-15288	Unnamed Stream	Camp Creek
67-15289	Unnamed Stream	Beaver Creek

Place of Use

The claimed beneficial use of the water occurs within the BLM's Horse Flat Allotment. The base property for this allotment is land owned by Karen and Keith Hood in Township 15 North, Range 3 West, Section 21, SWSW; Section 29, NENE, SENE, and NESE; Section 28, NE¼, NW¼, NESW, NWSW, NESE, and NWSE. All of the claims are appurtenant to the base property.

The recommended place of use for each right includes the Public Land Survey description for each portion that the stream passes through between the beginning and ending points of diversion.

Purpose of Use and Period of Use

Historical and current use of water for instream stockwater is supported by the Class 1 License issued to Charles R Edwards & Son in 1936 for grazing 250 cattle on public lands. The Hoods have a grazing permit for Horse Flat issued March 14, 2013. Water used for instream stockwater purposes is generally recommended for year-round use if year-round use is claimed.

Quantity

The quantity claimed is for 0.02 cfs. The typical diversion rate recommended for claims for watering stock directly from a stream is 0.02 cfs. This rate is consistent with diversion rates claimed for *de minimis* instream stockwater use.

CONCLUSION

All of the claims submitted by Karen and Keith Hood for watering livestock within the Horse Flat Allotment are hereby recommended as claimed. IDWR's standard conditions have been added where necessary to further describe specific elements of the water rights.

Pursuant to Judge Wildman's *Order Amending Procedures in the SRBA for Adjudication of Deferred De Minimis Domestic and Stock Water Claims*, dated October 17, 2017, the Director submits this Director's Report of Deferred *De Minimis* Domestic or Stock Water Uses for Claim Nos. 67-15271, 67-15279, 67-15280, 67-15281, 67-15282, 67-15283, 67-15284, 67-15285, 67-15286, 67-15287, 67-15288, and 67-15289, which includes the recommendation of the deferred *de minimis* water right numbers listed above.

Respectfully submitted this 17th day of September, 2021.

CRAIG L. SAXTON
Manager, Adjudication Section

CERTIFICATE OF SERVICE

I certify that on September 30, 2021, I caused to be served a true and correct copy of this Director's Report of Deferred *De Minimis* Domestic and/or Stock Water Use, to the following persons, in the manner indicated and addressed as follows:

1. Original to:
