1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Dear Mr. Poppy

6/23/01

In accordance with our water rights agreement this letter is to inform you of our intention to reconfigure the delivery point of our surface water allotment. We intend to return the upper ditch to it's original location thereby delivering our water to the high ground of our property. This will result in better use of our water.

Please forward this letter on to any concerned parties.

Thank you,

Jim Liesenfeld

WATER MANAGEMENT AGREEMENT

This Water Management Agreement ("Agreement") is entered into by and between the Poppy Family Trust, through its Trustees James H. and Martha Chandler Poppy ("Poppy") and James E. Liesenfeld and Colleen Crain ("Liesenfeld and Crain") regarding the ownership, management and use of certain water rights appurtenant to their respective properties.

Recitals

1. By means of the warranty deed dated October 6, 1995 (the "Deed"), a copy of which is attached hereto as Exhibit "A" to this Agreement, Poppy conveyed to Liesenfeld and Crain a parcel of land containing approximately 1.66 acre ("Lot 1"), together with its appurtenances. Poppy retains an adjacent parcel of approximately 18 acres ("Lot 2"), together with its appurtenances. Both lots are described on Exhibit "B."
2. Prior to the Deed, Lots 1 and 2 were both owned by Poppy and were irrigated by surface waters diverted from Purdom Slough for irrigation and other purposes under water rights nos. 37-0521 and 37-0522 (the "Surface Water Rights"). In addition, Lots 1 and 2 are the designated place of use for ground water to supplement the use under the Surface Water Rights pursuant to water right no. 37-7672, a ground water right diverted from a well on Lot 2 (the "Ground Water Right").
3. As a result of the Deed, the parties share the three water rights pro rata, with Poppy holding an undivided ninety-two percent of each of the three water rights for Poppy's Lot and Liesenfeld and Crain holding an undivided eight percent of each of the three water rights for their Lot 1.
4. The parties desire to specify, through an agreement that will serve as a covenant on Lots 1 and 2 and on their respective water rights, the means of water delivery and use on the two parcels and the rights and obligations of the parties respecting the water rights and facilities through which they are diverted and delivered.

Therefore, in consideration of the mutual promises contained herein, and other good and valuable consideration, the parties hereby covenant and agree as follows:

Terms of Agreement

5. Deliveries to Lot 1 under the surface rights. Lot 1 obtains water under the Surface Water Rights by means of deliveries on the north portion of Lot 1 as water is

available (the "Established Irrigation Program"). Liesenfeld and Crain shall continue to receive water diverted under the surface rights according to the Established Irrigation Program, subject to the terms of this Agreement.

6. Poppy's right to change ditch facilities. Under the Established Irrigation Program, Poppy shall be entitled to change the ditches, diversion works and related facilities through which waters under the surface rights are diverted and delivered (collectively, the "Ditch Facilities") on Lot 2, plat and develop lots, excavate, cultivate, install landscaping, seek approvals to use water under his portion of the surface rights for aesthetic purposes, and carry out other activities that may temporarily interrupt the flow of water to Lot 1, provided that all such activities shall maintain Liesenfeld and Crain's ability to receive water under the surface rights. Poppy agrees to give advance written notice of any temporary interruption of the flow of the surface rights.
7. Maintenance of Ditch Facilities. As long as the Established Irrigation Program continues, Liesenfeld and Crain shall not be obligated to contribute to the operation, maintenance, or replacement of the Ditch Facilities. However, if Liesenfeld and Crain desire to alter the Established Irrigation Program, they shall notify Poppy in writing and the parties shall agree on a different delivery arrangement under which Liesenfeld and Crain shall be entitled to a strict allocation of eight percent of the water available under the Surface Water Rights, measured at the point of diversion on Purdom Slough. Any such future agreement shall:
 - a. Not impair either party's ability to obtain their respective percentages of all surface water at such point of diversion;
 - b. Obligate Liesenfeld and Crain to pay their fair share of costs associated with the operation and maintenance of the Ditch Facilities, and shall entitle Liesenfeld and Crain to enter Lot 2 for the purpose of maintaining and repairing the Ditch Facilities;
 - c. Specify that surface water deliveries to Lot 1 may be interrupted temporarily to the extent necessary to allow Poppy to make emergency repairs to the Ditch Facilities; and
 - d. Reserve to Poppy the right, after October 1 in each year, to interrupt deliveries to Lot 1 during the remainder of that season's irrigation season in order to maintain, repair, or change the Ditch Facilities as necessary on a non-emergency basis.
8. Indemnity. Each party shall be responsible to the other for any injury or loss arising out of such party's activities respecting the Ditch Facilities, conducted on

or off of their property, and they shall hold the non-acting party harmless for such injury or loss.

9. Use of the Ground Water Right on Lot 1. Diversions under the Ground Water Right are necessary to achieve full irrigation of the parties' properties. Lot 1 is not independently served by diversion facilities. Liesenfeld and Crain shall not be entitled to divert their share of the Ground Water Right from Poppy's well or to enter Poppy's property in order to obtain ground water. Poppy agrees that Liesenfeld and Crain may apply to the Idaho Department of Water Resources to add a separate point of diversion on Lot 1 from which to divert water under their portion of the Ground Water Right. Poppy shall provide any reasonable documentation Poppy has which Liesenfeld and Crain believe necessary to support such application. Poppy agrees to cooperate with Liesenfeld and Crain in the submission and processing of such application.
10. First right of refusal. If Liesenfeld and Crain ever decide to sell any portion of the water rights appurtenant to Lot 1, they shall offer Poppy the opportunity, to be exercised by Poppy in writing within 30 days, to purchase the rights at the price of the best offer Liesenfeld and Crain receive for them.
11. Covenant running with the land. All of the covenants, conditions, and declarations contained herein shall be a burden on Lot 1 and Lot 2 and on the water rights, shall be appurtenant to and for the benefit of each lot and a burden on the other, shall run with the land and the water rights, and shall benefit and bind the parties, their heirs, successors and assigns. Either party may record this Agreement at its expense.
12. Recitals. The above recitals are hereby incorporated into this Agreement.

Dated this 22 day of August, 1997.
