RE: CHANGE OF OWNERSHIP FOR A PORTION OF;
A37-00521D, A37-00522C, AND A37-07672

Dear James

Enclosed are your copies of your respective portions of the above identified claims. As indicated on the change of ownership form I split the claims on an 8% basis. As the adjudication claims represent and will eventually replace the allocation records, no ownership change was made on the allocation records.

Sincerely

Kelly K Christensen

WATER MANAGEMENT AGREEMENT

This Water Management Agreement ("Agreement") is entered into by and between the Poppy Family Trust, through its Trustees James H. and Martha Chandler Poppy ("Poppy") and James E. Liesenfeld and Colleen Crain ("Liesenfeld and Crain") regarding the ownership, management and use of certain water rights appurtenant to their respective properties.

Recitals

1. By means of the warranty deed dated October 6, 1995 (the "Deed"), a copy of which is attached hereto as Exhibit "A" to this Agreement, Poppy conveyed to Liesenfeld and Crain a parcel of land containing approximately 1.66 acre ("Lot 1"), together with its appurtenances. Poppy retains an adjacent parcel of approximately 18 acres ("Lot 2"), together with its appurtenances. Both lots are described on Exhibit "B."
2. Prior to the Deed, Lots 1 and 2 were both owned by Poppy and were irrigated by surface waters diverted from Purdom Slough for irrigation and other purposes under water rights nos. 37-0521 and 37-0522 (the "Surface Water Rights"). In addition, Lots 1 and 2 are the designated place of use for ground water to supplement the use under the Surface Water Rights pursuant to water right no. 37-7672, a ground water right diverted from a well on Lot 2 (the "Ground Water Right").
3. As a result of the Deed, the parties share the three water rights pro rata, with Poppy holding an undivided ninety-two percent of each of the three water rights for Poppy's Lot and Liesenfeld and Crain holding an undivided eight percent of each of the three water rights for their Lot 1.
4. The parties desire to specify, through an agreement that will serve as a covenant on Lots 1 and 2 and on their respective water rights, the means of water delivery and use on the two parcels and the rights and obligations of the parties respecting the water rights and facilities through which they are diverted and delivered.

Therefore, in consideration of the mutual promises contained herein, and other good and valuable consideration, the parties hereby covenant and agree as follows:

Terms of Agreement

5. Deliveries to Lot 1 under the surface rights. Lot 1 obtains water under the Surface Water Rights by means of deliveries on the north portion of Lot 1 as water is

available (the "Established Irrigation Program"). Liesenfeld and Crain shall continue to receive water diverted under the surface rights according to the Established Irrigation Program, subject to the terms of this Agreement.

6. Poppy's right to change ditch facilities. Under the Established Irrigation Program, Poppy shall be entitled to change the ditches, diversion works and related facilities through which waters under the surface rights are diverted and delivered (collectively, the "Ditch Facilities") on Lot 2, plat and develop lots, excavate, cultivate, install landscaping, seek approvals to use water under his portion of the surface rights for aesthetic purposes, and carry out other activities that may temporarily interrupt the flow of water to Lot 1, provided that all such activities shall maintain Liesenfeld and Crain's ability to receive water under the surface rights. Poppy agrees to give advance written notice of any temporary interruption of the flow of the surface rights.
7. Maintenance of Ditch Facilities. As long as the Established Irrigation Program continues, Liesenfeld and Crain shall not be obligated to contribute to the operation, maintenance, or replacement of the Ditch Facilities. However, if Liesenfeld and Crain desire to alter the Established Irrigation Program, they shall notify Poppy in writing and the parties shall agree on a different delivery arrangement under which Liesenfeld and Crain shall be entitled to a strict allocation of eight percent of the water available under the Surface Water Rights, measured at the point of diversion on Purdom Slough. Any such future agreement shall:
 - a. Not impair either party's ability to obtain their respective percentages of all surface water at such point of diversion;
 - b. Obligate Liesenfeld and Crain to pay their fair share of costs associated with the operation and maintenance of the Ditch Facilities, and shall entitle Liesenfeld and Crain to enter Lot 2 for the purpose of maintaining and repairing the Ditch Facilities;
 - c. Specify that surface water deliveries to Lot 1 may be interrupted temporarily to the extent necessary to allow Poppy to make emergency repairs to the Ditch Facilities; and
 - d. Reserve to Poppy the right, after October 1 in each year, to interrupt deliveries to Lot 1 during the remainder of that season's irrigation season in order to maintain, repair, or change the Ditch Facilities as necessary on a non-emergency basis.
8. Indemnity. Each party shall be responsible to the other for any injury or loss arising out of such party's activities respecting the Ditch Facilities, conducted on

or off of their property, and they shall hold the non-acting party harmless for such injury or loss.

9. Use of the Ground Water Right on Lot 1. Diversions under the Ground Water Right are necessary to achieve full irrigation of the parties' properties. Lot 1 is not independently served by diversion facilities. Liesenfeld and Crain shall not be entitled to divert their share of the Ground Water Right from Poppy's well or to enter Poppy's property in order to obtain ground water. Poppy agrees that Liesenfeld and Crain may apply to the Idaho Department of Water Resources to add a separate point of diversion on Lot 1 from which to divert water under their portion of the Ground Water Right. Poppy shall provide any reasonable documentation Poppy has which Liesenfeld and Crain believe necessary to support such application. Poppy agrees to cooperate with Liesenfeld and Crain in the submission and processing of such application.
10. First right of refusal. If Liesenfeld and Crain ever decide to sell any portion of the water rights appurtenant to Lot 1, they shall offer Poppy the opportunity, to be exercised by Poppy in writing within 30 days, to purchase the rights at the price of the best offer Liesenfeld and Crain receive for them.
11. Covenant running with the land. All of the covenants, conditions, and declarations contained herein shall be a burden on Lot 1 and Lot 2 and on the water rights, shall be appurtenant to and for the benefit of each lot and a burden on the other, shall run with the land and the water rights, and shall benefit and bind the parties, their heirs, successors and assigns. Either party may record this Agreement at its expense.
12. Recitals. The above recitals are hereby incorporated into this Agreement.

Dated this 22 day of August, 1997.
