1-29-04 Richard Payne 37-527-528- 11931 (526)
I met with Dick Payne to review his water
files.

1- 37-11931 Dick advise me that he did not have
anything to justify or prove the priority of
this water claim and since he has converted
to sprinkler irrigation he doesn't want this
claim (it can be terminated) he did say that
years ago it was used every spring to
wet up the farm so they could get by the
remaining year with other rights, but he
has not used this right for years and
won't now so he does not want the claim.

2- the lands designated - (^{yellow}marks) in sec- 28 and
29 all east of LW river is lands for 37-527
and 528 which is now all sprinkler
irrigated (see photo) and regarding POW for
11931 when used years ago and when water
was available it was used on all lands they
owned but hasn't and isn't any longer.

3- all of water for 527 & 528 are delivered from
the LW canal to West Canal approx. where
marked on photo and there is no diversion
from LW river for these rights.

The lands sec 20 & 21 (see photo) belong to
Kenny Bailey & Paul Lindley.

The lands in 28 & 29 marked irrigation appears good for 527 & 528 east of LW river, land on west and north of POD for 726 appear good. Water right 37-726 is water delivered by water Dist 37M in Shoshone.

~~Richard~~ Richard said he thinks he has approx (more or less) 420 acres now under sprinkler and he is going to Twin Falls IDWR and file for a transfer of his water rights so he will be able to use all water on all of his farm when and where it is needed instead of the rights broken up into designated areas.

Water right 526A? 726 is all delivered from Silver Creek at POD shown on photo by Dist. 37M.

0526 is in Water Dist
