E. REASONS SUPPORTING OBJECTION(S):

The movant is claiming BLM's determined water rights, including water right number, priority date, basis, etc. The Final Unified Decree (FUD) established real property rights; the partial decrees issued are conclusive; the decrees are a final judgment; the movant is bound by the FUD and the decrees issued; and BLM has appropriated water pursuant to decree/license and therefore is not subject to further appropriation. There is no evidence that the claimant, or his predecessors, satisfied the test for a valid appropriation of water, where point(s) of diversion and/or place(s) of use are designated on federal public land. The

claimant does not have a valid water right with the elements claimed. This claim is to developed water decreed or licensed to BLM. Water that is already appropriated is not subject to further appropriation by another user. Claimant does not have authorization to convey private water through BLM's facility.
