Subject: 37-570B and 37-14268 (Robert Busch)

Rovig

I have good news and bad news. The good news is that when SM Bilyeu granted the motion for leave to file a late objection in water right no. 37-570B this afternoon, she treated the hearing on the motion as also being the initial hearing, so you guys won't have to have an initial hearing on this one in Fairfield next month. The bad news is that with the initial hearing now having been held, the SM wants us to contact the objector to start settlement discussions. We need to do this before October 26th. Here is the situation: the claimant is dead. His daughter, Jenna Rovig, is the personal representative of the estate. I haven't seen the claim file, so I don't know why we did this, but we recommended 37-570B for the irrigation of 2.2 acres. Ms. Rovig says there should be eleven irrigated acres. I have no idea if she is correct; she does not seem to be very savvy about water rights.

Anyway, Steve, I suspect either you or Matt recommended this claim because it is in Basin 37 Part 2. Could you pull the claim file and call her to discuss why it was recommended the way it was and what, if anything, we can do to resolve her concern that we should have recommended eleven acres? She lives in Meridian. Her phone number is 562-0455.

Additionally, she filed a motion to set aside the partial decree in water right number 37-14268. This is a small D & S right for two cabins on the property and some stockwater. It was originally objected to by Busch. He asserted entitlement to a larger quantity than is allowed for a small D & S. His objection was later withdrawn, and the right went forward to partial decree in about 2000. I suspect the objection was withdrawn because Busch learned that to get irrigation water he needed to file an irrigation claim (presumably 37-570B) and that he couldn't get it by objecting to his small D & S right. Ms. Rovig included 37-14268 in her efforts to reopen the water rights only in an excess of caution. She is not aware that there is necessarily a problem with 14268, but she wants to keep her options open in case there is. The SM rescheduled the hearing on her motion to set aside the partial decree for the date of the next status conference, November 21 @ 10:30, so she can have time to discuss the situation with both 570B and 14268 with you in order to assure herself that 14268 is okay before she decides to withdraw the motion to set it aside.

Anyway, if you guys could start looking into this in the near future I would very much appreciate it. Thanks.

Archie,

It appears that Robert Busch has two water rights:

Irrigation:	37-570B	In review.
Domestic & Stockwater:	37-14268	Partially decreed.

If you want to file an objection to our recommendation:

1) Write a letter to the Snake River Basin Adjudication (SRBA) court requesting permission to file a late objection. In your letter, clearly describe why you missed the May, 23 2007 objection deadline for 37-570B. If you are going to change the ownership of the water right (see below), also mention that you have filed a change of ownership with IDWR. Complete and attach form SF-1 (download at <http://www.srba.state.id.us/FORMS/SF1.PDF>) to your letter and it to the SRBA court at:

SNAKE RIVER BASIN ADJUDICATION
253 3rd Avenue North
P.O. Box 2707
Twin Falls, Idaho 83303-2707
Phone: 208-736-3011
Fax: 208-736-2121

Address or Ownership change:

A) If the property is still owned by Robert Busch, you can simply change the address so you are getting the correspondence. Send a letter to IDWR with the new address and attach documentation for who has decision making authority for the Robert Busch estate.

B) If the property is no longer owned by Robert Busch or his estate (now owned by your sister-in-law or in a trust). Fill out a change of ownership form (download at http://www.idwr.idaho.gov/water/srba/forms/Notice_Change_Ownership.pdf), attach copies of the deeds that document the transfer from Robert Busch to the present owner (your sister-in-law or a trust), and send it to IDWR.

RE: Soldier Creek water collection system

Dear Mr. Busch:

We are in receipt of your Joint Application for a proposed Water Collection System from Soldier Creek. Our observations indicate that any water that may have been used historically on the land which you propose to irrigate, could not have been diverted through a gravity flow system at the point which you propose to install your new diversion. Therefore, we are returning your application with the recommendation that a Transfer of Point of Diversion be filed prior to construction and use of a new diversion on Soldier Creek as was requested in Mr. Holmes' November 18 1993 letter to you. (See enclosed copy.)

Any construction in the stream channel prior to obtaining a valid water right for that point of diversion will be considered a violation of the Stream Channel Protection Act.

If you have any questions regarding this matter feel free to contact this office.

Sincerely,

Terry Blau

Re: Soldier Creek

Dear Terry:

Today I received a copy of your letter to Robert Busch dated October 26, 1993, concerning the need to apply for a transfer permit with respect to the diversion in Soldier Creek and the use of the Hanna Reedy right. I have discussed this matter with Mr. Busch who confirms that no construction has taken place since filing the Joint Application with the Army Corps of Engineers. As you may be aware, the Joint Application allows for the construction of the diversion for approximately one year. It is Mr. Busch's hope that a transfer permit will be issued by the Department before the expiration of that time so that he may complete construction of the diversion works.

Therefore, I will prepare the necessary transfer permit application on behalf of Mr. Busch. If you have any questions or concerns regarding this matter please feel free to contact me.

Very truly yours,

Patrick D. Madigan

Dear Mr. Holmes,

We are property owners along Soldier Creek, approximately eleven miles north of Fairfield. This letter is to express our concern about a project now being undertaken by another property owner, Robert Busch.

Recently we have become aware that Mr. Busch is in the process of installing a sizeable irrigation system and large pond on his property. It is our understanding that the irrigation project will involve 15 100-gallon per minute irrigation guns, a 4" intake pipe from the creek, and multiple motors.

Information received from your office indicates that the water rights for this plan are not finalized. Excavating already done, however, indicates that this project will proceed as if the rights were already decreed, and with no regard for its effect on downstream residents.

The valley along Soldier Creek is known to be short of water even in years of normal precipitation. We are concerned that diverting this large amount of water will affect the water table even more. In addition, the creek environment is important to us, both as an aesthetic asset and for its value as a wildlife habitat.

At this time we would like to request that your agency review Mr. Busch's project to ascertain the legality of the diversion. Since winter weather could close in at any time making a review impossible, we would also ask that this take place as soon as it can be arranged.

Enclosed are the names, addresses and phone numbers of the undersigned property owners. Thank you for your interest in this matter.

Re: Diversion of water on Soldier Creek near Fairfield, Idaho

Dear Mr. Busch:

This office recently investigated a report of construction of an irrigation system on lands owned by you in the NE1/4SW1/4 Sec. 29, T2N R14E, near Fairfield.

Records indicate that the lands are within the described place of use of water right No 37-00570, and also are covered by your claim no. A37-00570B, filed in the Snake River Basin Adjudication (SRBA).

Our observations indicate that you intend to divert water from Soldier Creek at a different point than what was originally used, and that construction was started after the commencement of the SRBA.

Please be advised that Idaho Law requires approval by the director of the Department of Water Resources before changing the point of diversion, place of use, or nature of use of a water right. Diversion of water through the new system can be enjoined by the department until such approval is granted.

Enclosed is application form for making a transfer of a water right. Filing this application will initiate the process of seeking a change in your water right.

If you have questions regarding this matter, please contact this office. If you wish, we can assist in the preparation of a transfer application.

Sincerely,

Loren O. Holmes, P. E.
