Dear Mr. Speck:

Pursuant to the change in ownership request that has been submitted to the Department, we have changed the record of current ownership to Elizabeth Smith. Please find the enclosed copies of the computer records of the claim(s) noting the change in claimant. Review these records and if there is an error, or you have any questions, please contact this office.

Please print or type. Attach pages with additional information. Instructions are included at the end of this form
 Incomplete forms will be returned

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of water right in which case division of the existing water right or adjudication claim record will be required.

37-8001D	37-8001D				

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See Instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions): **PLAT OF PROPERTY** or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Elizabeth N. Rood and/or James L. Smith
1350 Tasso St., Palo Alto, CA 94301
4. New Owner/Claimant(s) Elizabeth N. Smith

5. Date you acquired the property July 30, 2001

6. **IF THE CHANGE IN OWNERSHIP AFFECTS THE ENTIRE WATER RIGHTS FOR EACH WATER RIGHT OR ADJUDICATION CLAIM NUMBER LISTED IN ITEM 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change of ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

**RE: Elizabeth N. Smith - Notice of Change in Water Right Ownership
Our File No. 950322**

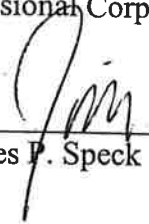

Dear Allen:

Enclosed you will find a Notice of Change of Water Right Ownership for my client, Elizabeth N. Smith. The water rights in question are presently recorded in her former name, Elizabeth N. Rood, and her now deceased husband, James L. Smith. Attached to the notice are copies of the Decree Changing Name and the Quitclaim Deed from the personal representative of the estate of James L. Smith, deceased for the property which is the place of use for these water rights. Please contact me right away if you have any questions or need any additional information to make this ownership change in your records. Kindly receipt date stamp the enclosed copy of the Notice and return it to me in the postage prepared self-addressed envelope included for that purpose. Once the Department records have been changed, please forward to me the computer printouts reflecting the new ownership of the water rights.

Thank you again for your continuing cooperation in these matters.

Sincerely yours,

INTER-DEPARTMENT MEMO

TO: John Borton Transfer App., T# 4525

SUBJECT: Staff Analysis

FROM: Jim Stanton

DATE: 11-30-94

The applicant owns about 4½ acres of land west of Bellevue. Of this land, only about 2.6 acres have been cleared and are being irrigated. The rest of the land is uncleared waste. The licensing exam for 37-8001 confirmed this. So the proposed transfer should be limited to 2.6 acres instead of the 3.5 acres claimed. Recent use of surface rights on this ground is questionable, but watermaster records show that the water was at least put into the diversion ditch within the last 5 years. Whether the water actually reached the property is unclear. Pending Transfer #4467 covers this same system on land recently sold by Mr. Borton. Diversion rate from the well should be limited to 1.5"/ac X 2.6 ac. or 0.08⁶ cfs in total for the decreed & licensed rights. Under proposed T. #4468, the groundwater license will supply will supply 0.03 cfs. So the surface rights should be limited to 0.03 cfs. Due to other recent work on this property, I do not plan to do another site visit.

NOV 28 1994

DEC 22 1994

FROM: Allen Merritt

DATE: December 16, 1994

TO: Transfer Files #4467 & #4468 both in the name of Rood

SUBJECT: Review and Recommendation

After reviewing both transfers I believe an explanation of the purpose of these transfers is in order.

It is my understanding that both transfers propose to divert water from a future or new well which is intended to be drilled on the Rood property. At present the Rood property is already irrigated by portions of the subject water rights.

Transfer #4467 proposes to add the source of groundwater to the old decrees which have historically been diverted out of the Big Wood River (Broadford Slough) and to affirm an accomplished transfer claimed under A37-00686D which moved the p/u from the original decree location to the claimed location.

Transfer #4468 involves Rood's original part (37-08001B for 0.05 cfs) and a portion (0.01 cfs) of Borton's original part (37-08001A for 0.04 cfs); leaving Borton with 0.03 cfs. The two parts which Rood now has control (0.05 + 0.01) will be moved from the well on the Borton property to the new well on the Rood property.

The total acreage to be covered by these two transfers is the same 3.5 acres.

APPROVAL CONDITIONS:

Transfer #4467 should be under control of watermaster of District 37 and should be regulated by priority with Big Wood rights. The well must have a meter and lockable control valve which would allow the watermaster to regulate.

Transfer #4468 since it involves same well should have measuring device and control works condition.

Both transfers should be limited such that when the well is utilized to divert all rights from both transfers that the diversion rate from the well is limited to the reasonable rate of 1.5"/acre for acreages less than 5 acres or in this case it would be limited to 0.11 cfs for the 3.5 acres.

Both transfers should be subject to : T09, 046

6. General Information:

a. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? Yes X No If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer: None.

c. Remarks: The portion of 37-00686A which is the subject of this transfer was purchased from John Borton and is claimed in the SRBA as A37-00686D. There is no record of the transfer of this right to Borton's lands. Therefore, a change of place of use is requested for this right to confirm the accomplished transfer. The place of use for the unchanged portions of the rights described below is that for 37-00578B, which is consistent with the accomplished and unrecorded transfer of 37-00686A. The portion of 37-00578B which is the subject of this transfer was purchased from John Borton and is claimed in the SRBA as A37-00578F.

MEMO TO FILE

FROM: MEL SCHULTE

DATE: 8-31-1994

RE: TRANSFER APPLICATION
JAMES L SMITH & ELIZABETH N ROOD
37-00578F & 37-00686D

1. The application proposes to change the P/U, ad a P/D, correct a P/D description and change the diversion of the referenced surface rights to a well to be drilled under groundwater right 37-08001D.
2. A field inspection was conducted August 26, 1994.
3. The current delivery system for the surface water is in poor condition. From the Wrencher #39 headgate to the P/U, the water must flow through a ditch full of weeds, logs and debris for about 3/4 mile. Whether water can be delivered through this system is questionable.
4. According to the water master, these rights were last delivered and assessed to John Borton in 1991. Their records also indicate there is one other user on the ditch with an equal amount of water (20" total).
5. The site of the proposed new well is about one/fourth mile West from the surface water source, Broadford Slough. The groundwater source is most likely recharged by seepage from the slough which establishes an interrelationship between the two sources.
6. The approval of this application and another pending transfer for groundwater right 37-08001D would provide a total of approximately 4.43"/acre (.86" + 3.57") from the well. I recommend the combination of all the rights be limited to the department standard of 1.5"/acre.

RE: SRBA CLAIM NOS. A37-00578F & A37-00686D
LOCATION OF WRENCHER #39 POINT OF DIVERSION

Dear Mr. Speck,

It appears there is some confusion over the correct Legal Description for the Point of Diversion for the Wrencher #39 headgate. Your concerns and questions were forwarded to me and together we should be able to resolve this.

Enclosed please find a document I prepared listing the diversions above Magic Reservoir from the Big Wood Drainage. The information given in this list for the first 45 diversions is based on field confirmations of the actual diversions by me, Allen Merritt, and Reid Newby, former watermaster. The second half of the listing is taken from review of aerial photos and maps. If you can confirm any corrections to this information I would gladly welcome the assistance.

Your previous correspondence with our staff indicates we agree on the Township-Range-Section, but, you say the #39 headgate is located in SWNWNE and we said no, it's the SWNENW. Since our records consistently show the SWNENW; is it possible the diversion you actually refer to in the SWNWNE is the Wrencher #39-A?

Please refer to the enclosed map. There were two Wrencher points of diversion identified by Mr. Reid Newby and located by me in the slough. If your legal description is correct as stated it may be referring to the #39-A site instead of the #39 site. My notes indicate this diversion site was created or added in 1989.

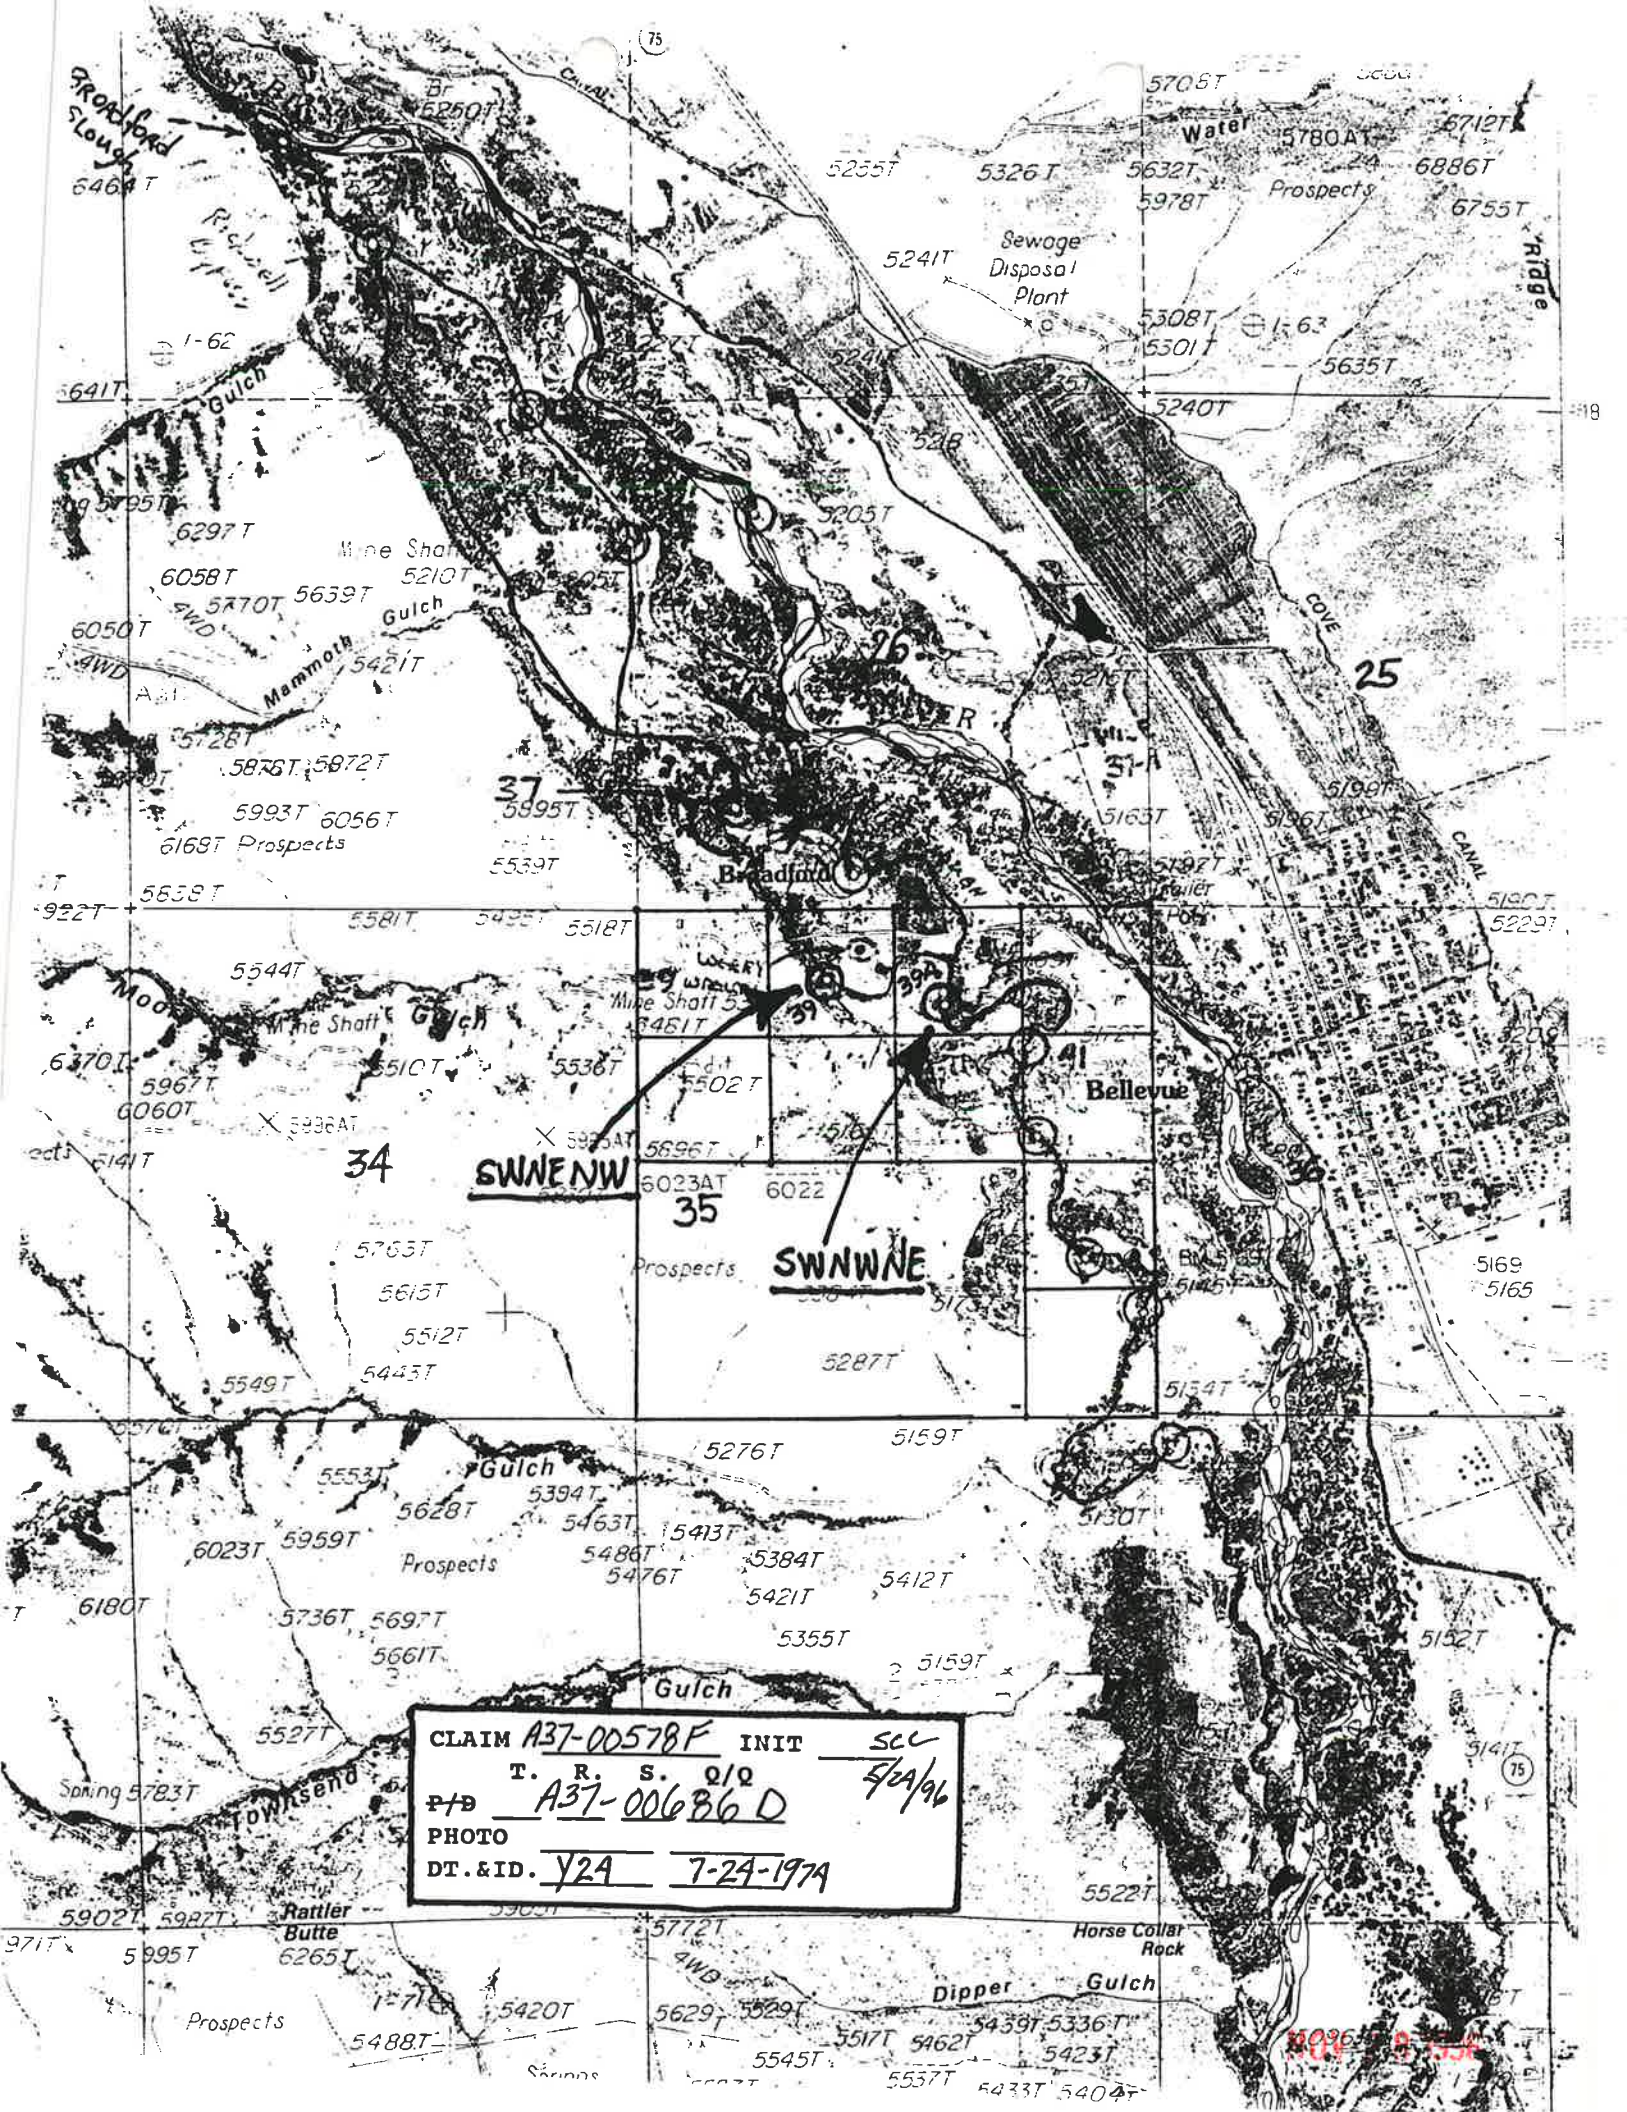

After you have reviewed the information herein, please feel free to contact me at our office to make any necessary corrections to the Transfers 4467 & 4468 or to the SRBA claims A37-00578F & A37-00686D. If necessary I am willing meet with the parties involved to clarify this via on-site examination of the diversion and Broadford Slough area.

Sincerely,

STEVE CLELLAND
Water Resource Agent

IDWR Employee/Agent TRISH FAWCETT

At 12:15 p.m. Jim Speck called regarding the correspondence we have had about claims A37-00578F and A37-00686D James Smith and Elizabeth Rood. On July 21, 1994 Mr. Speck filed Transfer 4467 on behalf of Smith and Rood proposing to add a P/D and change the P/U. Mr. Speck listed the existing P/D (Wrencher #39 headgate) in the SWNWNE of T2N, R18E, S35. At some point in time someone changed it to SWNENW. The transfer was approved with the P/D in the SWNENW. I data entered the approved transfer 10/27/95 and sent a copy of the amended claim to Mr. Speck. On Nov 16, 1995 I received a letter from Mr. Speck requesting I double check the location of the Wrencher #39 headgate. A subsequent check of our records indicated Wrencher #39 was in the SWNENW. I sent Mr. Speck copies of the records I checked (the original AJ claims filed by John Borton and the transfer that originally changed to P/D to Wrencher #39) and suggested he call Lee Peterson if he still felt our records to be in error. When he called this afternoon, he stated that he had phoned Lee Peterson and that Lee told him the Wrencher #39 headgate was in the SWNWNE as shown on the original filing of Transfer 4467. I told Mr. Speck I would have to check with my supervisor and that someone would get back with him as to what needed to be done to correct the claims.

SRBA Claim Nos. A37-00578F and A37-00686D

Dear Mr. Speck:

I have spent some time investigating whether the location of the Wrencher #39 headgate is in the SWNWNE or the SENENW of Section 35, Township 2 North, Range 18 East, in regards to the question you posed in your November 13, 1995 letter. All of the records I checked listed the Wrencher #39 headgate in the SENENW.

I am enclosing, for your reference, copies of John Borton's original adjudication filings listing the point of diversion in the SENENW and a copy of Transfer 2654 which also lists Wrencher #39 in the NENW. If you would like to pursue this further, the watermaster for the Big Wood River would have the most complete records. His name is Lee Peterson, telephone number 886-2451 in Shoshone.

If I can be of any further assistance, please let me know.

Dear Ms. Fawcett:

My records indicate that the Wrencher #39 headgate, which is the point of diversion for water rights Nos. 37-00578F and 37-00686D from the Big Wood River (Broadford Slough) is in the southwest quarter northwest quarter northeast quarter of Section 35, Township 2 North, Range 18 East, rather than the southeast quarter northeast quarter northwest quarter of Section 35. Will you please double check this and, if I am correct, make the proper changes to the amendments of the SRBA claims and the approved transfers.

Thank you.
