Dear Mr. and Mrs. Carney:

Pursuant to the change in ownership request that has been submitted to the Department, we have changed the record of current ownership to you. Please find the enclosed copies of the computer records of the claim(s) noting the change in claimant.

While verifying the places of use in the claims against your warranty deed, I discovered what appears to be a data entry error. As you can see on the enclosed Adjudication Claim Report for 37-1163, the place of use lists 40 acres in the NWNW in Section 11 of township 1N, range 22E. The original claim filed by Verl Simpson contains a page from the Carey Valley Reservoir Co. vs. Eldridge & Condie et al. decree indicating the NWNW is actually in section 12. The map attached to the claim also supports section 12.

In order to correct this apparent error, it is necessary for you to amend claim 37-1163. I am enclosing an amended claim showing what I believe is the correct place of use. Please review this amended claim and if you agree it reflects your actual place of use, sign where indicated in front of a notary and return the entire amended claim to me in the enclosed self-addressed envelope. I will then make permanent the correction to our records and confirm by letter when this has been completed. All other printouts of the claims listed above are for you to keep for your records. Please feel free to contact me should you have any questions.

Sincerely,

Trish Fawcett

Whereupon, the plaintiff introduced its evidence and rested, the various intervenors introduced their evidence and rested, and plaintiff introduced its rebuttal evidence and rested;

Whereupon, the court announced that the matter would be taken under advisement, and directed that all parties should file written briefs, and thereafter present oral argument;

And whereas, all parties having filed with the court their written briefs and arguments, the matter was by order of the court orally argued at Gooding, Idaho, within said district on the 21st day of November, 1939, and finally submitted to the court; the court being duly advised in the premises, and having made its findings of fact and conclusions of law herein;

IT IS HEREBY ORDERED, ADJUDGED AND DECREED, that the plaintiff be and hereby is, awarded the right to divert, impound, store and subsequently use for the irrigation of the land of its various stockholders, viz: (land not pertaining to this abstract) Total number of acres to be irrigated 17,207; said diversion to be limited to the capacity of its reservoir, viz: 14,411 acre feet, such right to date from and have priority of November the first, 1922;

That the intervenor, Stella Hurst, be and hereby is awarded the right to divert and use (seventy-eight inches) one and fifty-six hundredths second feet (1.56 s.f.) of the waters of Fish Creek for the irrigation of her land, viz: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3; S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 2; N $\frac{1}{2}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 12, all in twp. 1 N., R. 22 E. B. M., containing about 340 acres; said right to date from and have priority of May 1st, 1923; but as between the parties to this action said right shall during the flood and freshet period, when such waters can be beneficially used for irrigation, be deemed of equal priority with plaintiff's rights in said flood and freshet waters herein decreed.

That the waters of said Fish Creek be, in the future, administered under and in strict accordance with the terms, conditions and priorities fixed by the decree in the case of Potter et al. v. Patterson et al., made and entered in this court on the 15th day of December, 1914, as supplemented by this decree; and that for the purpose of administration, in arriving at the natural flow of Fish Creek, the agreement of the parties, and interpretation of the decree for the past eight years adopted and used, the natural flow of Fish Creek shall be such water as flows into the head of the reservoir from day to day, plus (200 inches) 4 second feet originating from springs within the contour lines of the reservoir and contributed by the flow of that portion of Crooks Creek situate below the high water contour lines of said Fish Creek reservoir and by the flow of that portion of the west fork of Fish Creek below the high water lines of said Fish Creek reservoir.

That in order to compensate for the increased loss by seepage and evaporation in the bed of Fish Creek below the said dam, that such plaintiff be, for the first five days of each recurring season, required to discharge through its head works a sufficient amount of stored water to compensate for said loss, not exceeding in any one season 40.5 second feet or 81 acre feet, and that none of such water, so discharged into said

Notes

T1N R22E Sections 1, 2, 11, & 12

- Found 130 acres
- POU represents land that they appear to be able to irrigate with this right based on the location of the POD and the locations of ditches identified in the field exam. Since the duty is less than the standard, I plan to recommend the entire decreed diversion rate on this POU.
- This right is supplemental to, but does not supercede any of the other water rights on this land decreed in Potter vs. Patterson.
- IDWR database appears to be in error in listing a priority date of 5/1/1933. According to decree, the priority date should be 5/1/1923
- This appears to be a flood water right.
- Data used for review: 1987, 1992, & 2004 aerial photos, Blaine Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

I have an appt. to meet Gary at location north of Carey and we did meet this morning at the location we agreed on and reviewed his seven water right files then we proceeded to his place North of fish creek reservoir to locate his three POD's.

Water Right 37-758: this right does irrigate the two yellow outline areas on the West side of photo from No. 1 diversion and the area down fish creek is riparian irrig. natural and the water is from East Fish creek, the small area lower east side of road is not irrig. With this water.

Water Right 2578: the area along fish creek designated riparian is and is irrig. Naturally , the small area bottom south west about Carey res. Gary said he didn't believe this is so, and the large gray area is a mountain and natural irrig only and the area East side irrig. With this rightt -yes it will be in the near future when circle sprinklers are installed

Water Right 1163: Gary said the area marked yellow looks OK for place of use and is provided water from Well POD 2 and area along fish creek is riparian natural irrig. The area marked green is not and he does not know.

Water right 764: this area is provided water from No.2 POD and the creeks are fish creek and east fork with the gray area the mountain and not irrig. The area marked in yellow was irrig. By water from POD 3 prior spring wash out and will be. Gary said he would install a new structure or a pump not sure at this date. Source of water is fish creek , and Gary said the yellow area represents a good area.

Water Right 763 overlaps 760.

Water Right 761A: Gary said this area looks OK and is provided by POD 1, East Fork .
